

APPENDIX A

**Selected Portions of the *Code of Virginia*
Related to the Reporting and Control of Disease
(Chapter 40 of Title 2.2 and Chapter 2 of Title 32.1)**

TABLE OF CONTENTS

I. Administrative Process Act (Title 2.2, Chapter 40)	A-1
II. Disease Prevention and Control (Title 32.1, Chapter 2)	A-1
Article 1. Reporting of Diseases	A-1
§ 32.1-35. List and reports of diseases and dangerous microbes and pathogens	A-1
§ 32.1-35.1. (Effective July 1, 2008) Information on nosocomial infections	A-1
§ 32.1-36. Reports by physicians and laboratory directors	A-1
§ 32.1-36.1. Confidentiality of test for human immunodeficiency virus; civil penalty; individual action for damages or penalty	A-3
§ 32.1-37. Reports by persons other than physicians	A-4
§ 32.1-37.1. Report of diseases infecting dead human bodies	A-4
§ 32.1-37.2. Informed consent for testing for human immunodeficiency virus; condition on disclosure of test results; counseling required; exceptions	A-4
§ 32.1-38. Immunity from liability	A-5
Article 2. Investigation of Diseases	A-6
§ 32.1-39. Surveillance and investigation	A-6
§ 32.1-40. Authority of Commissioner to examine medical records	A-6
§ 32.1-41. Anonymity of patients and practitioners to be preserved in use of medical records.....	A-7
Article 3. Disease Control Measures	A-7
§ 32.1-42. Emergency rules and regulations	A-7
§ 32.1-42.1. Administration and dispensing of necessary drugs and devices during declared disaster or state of emergency	A-7
§ 32.1-43. Authority of State Health Commissioner to require quarantine, etc.	A-7
§ 32.1-44. Isolated or quarantined persons	A-8
§ 32.1-45. Expense of treatment.....	A-8
§ 32.1-45.1. Deemed consent to testing and release of test results related to infection with human immunodeficiency virus or hepatitis B or C viruses	A-8
§ 32.1-45.2. Public safety employees; testing for blood-borne pathogens; procedure available for certain citizens; definitions.....	A-10

§ 32.1-45.3.	Certain testing of gamete donors required; Board to establish testing protocol.....	A-12
§ 32.1-46.	Immunization of patients against certain diseases	A-12
§ 32.1-46.01.	Virginia Immunization Information System.....	A-14
§ 32.1-46.1.	Board to establish protocol for identification of children with elevated blood-lead levels.....	A-16
§ 32.1-46.2.	Certain testing for determination of low risk for elevated blood-lead levels required.....	A-17
§ 32.1-47.	Exclusion from school of children not immunized.....	A-17
§ 32.1-48.	Powers of Commissioner in epidemic	A-17
Article 3.01. Isolation of Certain Persons with Communicable Diseases of Public		
	Health Significance	A-17
§ 32.1-48.01.	Definitions	A-17
§ 32.1-48.02.	Investigations of verified reports or medical evidence; counseling; outpatient and emergency treatment orders; custody upon emergency order; application of article	A-18
§ 32.1-48.03.	Petition for hearing; temporary detention	A-19
§ 32.1-48.04.	Isolation hearing; conditions; order for isolation; right to appeal.....	A-20
Article 3.02. Quarantine and Isolation of Persons with Communicable Diseases of Public		
	Health Threat	A-21
§ 32.1-48.05.	Application of article; determination of exceptional circumstances; regulations; duties of the State Health Commissioner not be delegated.....	A-21
§ 32.1-48.06.	Definitions	A-22
§ 32.1-48.07.	Conditions for invoking the provisions of this article.....	A-23
§ 32.1-48.08.	Declaration of quarantine.....	A-24
§ 32.1-48.09.	Order of quarantine	A-24
§ 32.1-48.010.	Appeal of any order of quarantine.....	A-26
§ 32.1-48.011.	Isolation may be ordered under certain exceptional circumstances; Commissioner authorized to require hospitalization or other health care.....	A-28
§ 32.1-48.012.	Isolation order	A-28
§ 32.1-48.013.	Appeal of any order of isolation.....	A-30
§ 32.1-48.013:1.	Electronic filings as protection from communicable disease.....	A-32
§ 32.1-48.014.	Enforcement of orders of quarantine or isolation; penalties.....	A-32

§ 32.1-48.015. Authorization to disclose health records	A-32
§ 32.1-48.016. Immunity from liability	A-33
§ 32.1-48.017. Use of public or private property or facilities	A-33
Article 3.1. Control of Rabies	A-34
§ 32.1-48.1. Regulation of State Health Commissioner declaring existence of rabies; display and publication	A-34
§ 32.1-48.2. Regulation of Commissioner requiring vaccination or inoculation of dogs	A-34
§ 32.1-48.3. Regulations of Commissioner covering local ordinances and requirements	A-34
§ 32.1-48.4. Commissioner to cooperate with local governing bodies and agencies	A-35
Article 4. Tuberculosis	A-35
§ 32.1-49. Tuberculosis required to be reported	A-35
§ 32.1-49.1 Definitions	A-35
§ 32.1-50. Examination of persons suspected of having active tuberculosis disease; reporting; report forms; report schedule; laboratory reports and required samples	A-35
§ 32.1-50.1. Treatment plan; submission of plan and mediation of disagreements; determination of cure	A-36
§ 32.1-50.2. Administration of tuberculin purified protein derivative by nurses; policies and guidelines	A-37
§ 32.1-53. Facilities and contracts for treatment of tuberculosis patients	A-37
§ 32.1-54. Commissioner authorized to charge patients for care	A-38
Article 5. Venereal Diseases	A-38
§ 32.1-55. Definition	A-38
§ 32.1-55.1. Anonymous testing sites for human immunodeficiency virus	A-38
§ 32.1-56. Information to be provided patients	A-38
§ 32.1-57. Examination, testing and treatment; failure to comply with order of examination	A-38
§ 32.1-58. Persons convicted of certain crimes to be examined, tested and treated	A-39
§ 32.1-59. Examination and treatment in certain institutions	A-39
§ 32.1-60. Prenatal tests required	A-39
Article 6. Prevention of Blindness from Ophthalmia Neonatorum	A-39
§ 32.1-61. Definition	A-39

§ 32.1-62.	Procedure upon infant's birth.....	A-39
§ 32.1-63.	Duty of physician, midwife or nurse noting ophthalmia neonatorum .	A-40
§ 32.1-64.	Duty of Board to provide for treatment	A-40
Article 9. Statewide Cancer Registry		A-40
§ 32.1-70.	Information from hospitals, clinics, certain laboratories and physicians supplied to Commissioner; statewide cancer registry....	A-40
§ 32.1-70.2.	Collection of cancer case information by the Commissioner	A-41
§ 32.1-71.	Confidential nature of information supplied; publication; reciprocal data-sharing agreements	A-41
§ 32.1-71.01.	Penalties for unauthorized use of statewide cancer registry	A-42
§ 32.1-71.02.	Notification of cancer patients of statewide cancer registry reporting	A-42
III. Penalties		A-42
Article 11. Penalty (from Chapter 2, Title 32.1)		A-42
§ 32.1-73.	Failure to comply with provision; grounds for revocation of license or permit	A-42
Article 4. Penalty (from Chapter 1, Title 32.1)		A-43
§ 32.1-27.	Penalties, injunctions, civil penalties and charges for violations.....	A-43

HEALTH LAWS OF VIRGINIA

I. ADMINISTRATIVE PROCESS ACT [from Chapter 40 of Title 2.2]

ARTICLE 1. General Provisions.

§ 2.2-4002. Exemptions from chapter generally.

A. Although required to comply with § 2.2-4103 of the Virginia Register Act (§ 2.2-4100 et seq.), the following agencies shall be exempted from the provisions of the chapter, except to the extent that they are specifically made subject to §§ 2.2-4024, 2.2-4030 and 2.2-4031:

...

23. The Board of Health in promulgating the list of diseases that shall be reported to the Department of Health pursuant to § 32.1-35.

II. DISEASE PREVENTION AND CONTROL [from Chapter 2 of Title 32.1]

ARTICLE 1. Reporting of Diseases.

§ 32.1-35. List and reports of diseases and dangerous microbes and pathogens.

The Board shall promulgate from time to time a list of diseases, including diseases caused by exposure to any toxic substance as defined in § 32.1-239 and including diseases that may be caused by exposure to an agent or substance that has the potential for use as a weapon, that shall be required to be reported. The Board shall also promulgate from time to time a list of dangerous microbes and pathogens that shall be required to be reported by laboratories. The Board may classify such diseases, microbes and pathogens and prescribe the manner and time of such reporting.

(Code 1950, § 32-16; 1979, c. 711; 2002, cc. 100, 768.)

§ 32.1-35.1. (Effective July 1, 2008) Information on nosocomial infections.

Acute care hospitals shall report information about nosocomial infections to the Centers for Disease Control and Prevention's National Healthcare Safety Network. Such hospitals shall release their infection data to the Board of Health. The specific infections to be reported, the hospitals required to report, and patient populations to be included shall be prescribed by Board regulation. Such hospital infection rate data may be released to the public by the Board, upon request.

(2005, c. 444.)

§ 32.1-36. Reports by physicians and laboratory directors.

A. Every physician practicing in this Commonwealth who shall diagnose or reasonably suspect that any patient of his has any disease required by the Board to be reported and every director of any laboratory doing business in this Commonwealth that performs any test whose results indicate the presence of any such disease shall make a report within such time and in such manner as may be prescribed by regulations of the Board. Any such report involving a disease that such physician or laboratory director has reason to believe may be caused by exposure to an agent or

substance that has been or may be used as a weapon shall be reported directly to the Commissioner or his designee using an emergency response system maintained by the Department and operated twenty-four hours a day.

- B. Any physician who diagnoses a venereal disease in a child twelve years of age or under shall, in addition to the requirements of subsection A hereof, report the matter, in accordance with the provisions of § 63.2-1509, unless the physician reasonably believes that the infection was acquired congenitally or by a means other than sexual abuse.
- C. Any physician practicing in this Commonwealth shall report to the local health department the identity of any patient of his who has tested positive for exposure to human immunodeficiency virus as demonstrated by such test or tests as are approved by the Board for this purpose. However, there is no duty on the part of the physician to notify any third party other than the local health department of such test result, and a cause of action shall not arise from any failure to notify any other third party.
- D. Upon investigation by the local health department of a patient reported pursuant to subsection A, the Commissioner may, to the extent permitted by law, disclose the patient's identity and disease to the patient's employer if the Commissioner determines that (i) the patient's employment responsibilities require contact with the public and (ii) the nature of the patient's disease and nature of contact with the public constitutes a threat to the public health.

The patient's identity and disease state shall be confidential as provided in §§ 32.1-36.1 and 32.1-41. Any unauthorized disclosure of reports made pursuant to this section shall be subject to the penalties of § 32.1-27.

- E. Physicians and laboratory directors may voluntarily report additional information at the request of the Department of Health for special surveillance or other epidemiological studies.
- F.
 - 1. Every laboratory located in this Commonwealth shall file a written report with the Department of its inventory of dangerous microbes and pathogens on an annual basis. The laboratory shall supplement this report upon any change in such inventory as prescribed by the Board or immediately if any microbes or pathogens cannot be accounted for within twenty-four hours.
 - 2. Except as provided in this subsection, a report submitted pursuant to this subsection shall be confidential and shall not be a public record pursuant to the Freedom of Information Act (§ 2.2-3700 et seq.). The Department shall cooperate with and may share information submitted to it pursuant to this subsection with the United States Centers for Disease Control and Prevention, and state and federal law-enforcement agencies in any investigation involving the release, theft or loss of a dangerous microbe or pathogen required to be reported under this subsection.
 - 3. Any unauthorized disclosure of reports made pursuant to this subsection shall be subject to the penalties of § 32.1-27.

(Code 1950, § 32-48; 1976, c. 628; 1979, c. 711; 1981, c. 282; 1988, c. 130; 1989, c. 613; 1995, c. 534; 1997, c. 271; 2002, cc. 100, 768.)

§ 32.1-36.1. Confidentiality of test for human immunodeficiency virus; civil penalty; individual action for damages or penalty.

A. The results of every test to determine infection with human immunodeficiency virus shall be confidential. Such information may only be released to the following persons:

1. The subject of the test or his legally authorized representative.
2. Any person designated in a release signed by the subject of the test or his legally authorized representative.
3. The Department of Health.
4. Health care providers for purposes of consultation or providing care and treatment to the person who was the subject of the test or providing care and treatment to a child of a woman who, at the time of such child's birth, was known to be infected with human immunodeficiency virus.
5. Health care facility staff committees which monitor, evaluate, or review programs or services.
6. Medical or epidemiological researchers for use as statistical data only.
7. Any person allowed access to such information by a court order.
8. Any facility which procures, processes, distributes or uses blood, other body fluids, tissues or organs.
9. Any person authorized by law to receive such information.
10. The parents or other legal custodian of the subject of the test if the subject is a minor.
11. The spouse of the subject of the test.
12. Departments of health located outside the Commonwealth by the Virginia Department of Health for the purposes of disease surveillance and investigation.

B. In any action brought under this section, if the court finds that a person has willfully or through gross negligence made an unauthorized disclosure in violation of this section, the Attorney General, any attorney for the Commonwealth, or any attorney for the county, city or town in which the violation occurred may recover for the Literary Fund, upon petition to the court, a civil penalty of not more than \$5,000 per violation.

C. Any person who is the subject of an unauthorized disclosure pursuant to this section shall be entitled to initiate an action to recover actual damages, if any, or \$100, whichever is greater. In addition, such person may also be awarded reasonable attorney's fees and court costs.

- D. This section shall not be deemed to create any duty on the part of any person who receives such test results, where none exists otherwise, to release the results to a person listed herein as authorized to receive them.

(1989, c. 613; 1990, c. 777; 1993, cc. 97, 664.)

§ 32.1-37. Reports by persons other than physicians.

- A. The person in charge of any medical care facility, school or summer camp as defined in § 35.1-1 shall immediately make or cause to be made a report of a disease required by the Board to be reported when such information is available to that person and that person has reason to believe that no physician has reported such disease as provided in § 32.1-36. Such report shall be made by telephone or in person to the local health director or to the Commissioner.
- B. The person in charge of any medical care facility, school or summer camp as defined in § 35.1-1 may also voluntarily report additional information at the request of the Department of Health for special surveillance or other epidemiological studies.

(Code 1950, § 32-49; 1979, c. 711; 1997, c. 271.)

§ 32.1-37.1. Report of diseases infecting dead human bodies.

Upon transferring custody of any dead body to any person practicing funeral services or his agent, any hospital, nursing facility or nursing home, assisted living facility, or correctional facility shall, at the time of transfer, notify the person practicing funeral services or his agent if the individual was known to have had immediately prior to death an infectious disease which may be transmitted through exposure to any bodily fluids.

Any facility or members of its staff specified in this section shall not be liable for injury resulting from ordinary negligence in failing to identify, as herein prescribed, a dead body of a person known to have had an infectious disease immediately prior to death.

The Board of Health shall determine the infectious diseases for which notification is required pursuant to this section.

(1988, c. 836; 1993, cc. 957, 993.)

§ 32.1-37.2. Informed consent for testing for human immunodeficiency virus; condition on disclosure of test results; counseling required; exceptions.

- A. Prior to performing any test to determine infection with human immunodeficiency virus, the subject of the test shall be given an oral or written explanation of the meaning of the test. Except as otherwise authorized in this Code, informed consent shall be obtained before such a test is performed.

Informed consent for testing for infection with human immunodeficiency virus shall be deemed to have been obtained (i) when an individual seeks the services of a facility offering anonymous testing for infection with human immunodeficiency virus; (ii) when blood specimens which were obtained for routine diagnostic purposes are tested in order to conduct seroprevalence studies of infection with human immunodeficiency virus if such studies are designed to prevent

any specimen from being identified with any specific individual; and (iii) when an individual donates or sells his blood.

- B. Every person who is the subject of any test to determine infection for human immunodeficiency virus shall be afforded the opportunity for individual face-to-face disclosure of the test results and appropriate counseling. Appropriate counseling shall include, but not be limited to, the meaning of the test results, the need for additional testing, the etiology, prevention and effects of acquired immunodeficiency syndrome, the availability of appropriate health care, mental health care and social services, the need to notify any person who may have been exposed to the virus and the availability of assistance through the Department of Health in notifying such individuals.
- C. Opportunity for face-to-face disclosure of the test results and appropriate counseling shall not be required when the tests are conducted by blood collection agencies. However, all blood collection agencies shall notify the Board of Health of any positive tests.
- D. In the case of a person applying for accident and sickness or life insurance who is the subject of a test to determine infection for human immunodeficiency virus, insurers' practices including an explanation of the meaning of the test, the manner of obtaining informed consent, the method of disclosure of the test results and any counseling requirements shall be as set forth in the regulations of the State Corporation Commission.

(1989, c. 613.)

§ 32.1-38. Immunity from liability.

Any person making a report or disclosure required or authorized by this chapter, including any voluntary reports submitted at the request of the Department of Health for special surveillance or other epidemiological studies, shall be immune from civil liability or criminal penalty connected therewith unless such person acted with gross negligence or malicious intent. Further, except for such reporting requirements as may be established in this chapter or by any regulation promulgated pursuant thereto, there shall be no duty on the part of any blood collection agency or tissue bank to notify any other person of any reported test results, and a cause of action shall not arise from any failure by such entities to notify others. Neither the Commissioner nor any local health director shall disclose to the public the name of any person reported or the name of any person making a report pursuant to this chapter. No person making a report required or authorized by this chapter shall be responsible for recognizing agents or suspecting the presence of any conditions beyond the competence of a reasonable person practicing his profession; however, any such person shall be immune as provided in this section when making reports in good faith without gross negligence and within the usual scope of his practice.

(Code 1950, § 32-48; 1976, c. 628; 1979, c. 711; 1988, c. 130; 1990, c. 777; 1997, c. 271; 2002, c. 768.)

ARTICLE 2. Investigation of Diseases.

§ 32.1-39. Surveillance and investigation.

- A. The Board shall provide for the surveillance of and investigation into all preventable diseases and epidemics in this Commonwealth and into the means for the prevention of such diseases and epidemics. Surveillance and investigation may include contact tracing in accordance with the regulations of the Board. When any outbreak or unusual occurrence of a preventable disease shall be identified through reports required pursuant to Article 1 (§ 32.1-35 et seq.) of this chapter, the Commissioner or his designee shall investigate the disease in cooperation with the local health director or directors in the area of the disease. If in the judgment of the Commissioner the resources of the locality are insufficient to provide for adequate investigation, he may assume direct responsibility and exclusive control of the investigation, applying such resources as he may have at his disposal. The Board may issue emergency regulations and orders to accomplish the investigation.
- B. When an investigation of any outbreak or occurrence of a disease identified through reports required pursuant to Article 1 (§ 32.1-35 et seq.) of this chapter indicates the reasonable possibility that the outbreak or occurrence was the result of exposure to an agent or substance used as a weapon, the Commissioner or his designee shall immediately report such finding to the Department of State Police for investigation. Reports, records, materials or other data reported to the Department of State Police pursuant to this section shall remain confidential and shall not be subject to the provisions of the Virginia Freedom of Information Act (§ 2.2-3700 et seq.). The Department of State Police, and any local law enforcement official, may release all or part of any report made or other information obtained pursuant to this section (i) where the release of such report or information may assist in the prevention of imminent harm to public health or safety, or (ii) where the release of such report or information, with patient identifying information removed, may be useful for education of the public on health, safety or homeland defense issues. Reports required by this section shall be maintained in the central repository established by the Department of State Police pursuant to the provisions of § 52-8.5. The Department of State Police shall immediately transmit the report to the local chief of police or sheriff with law-enforcement responsibilities both where the patient resides and where he sought the medical treatment that resulted in the report. In addition, the Department of State Police may transmit the report to federal and military law-enforcement authorities. The Department of State Police and local law-enforcement authorities shall immediately determine and implement the appropriate law-enforcement response to such reports, in accordance with their jurisdiction.

(Code 1950, §§ 32-10, 32-42; 1979, c. 711; 1989, c. 613; 2002, c. 768.)

§ 32.1-40. Authority of Commissioner to examine medical records.

Every practitioner of the healing arts and every person in charge of any medical care facility shall permit the Commissioner or his designee to examine and review any medical records which he has in his possession or to which he has access upon request of the Commissioner or his designee in the course of investigation, research or studies of diseases or deaths of public health importance. No such practitioner or person shall be liable in any action at law for permitting such examination and review.

(Code 1950, § 32-10.1; 1960, c. 507; 1979, c. 711.)

§ 32.1-41. Anonymity of patients and practitioners to be preserved in use of medical records.

The Commissioner or his designee shall preserve the anonymity of each patient and practitioner of the healing arts whose records are examined pursuant to § 32.1-40 except that the Commissioner, in his sole discretion, may divulge the identity of such patients and practitioners if pertinent to an investigation, research or study. Any person to whom such identities are divulged shall preserve their anonymity.

(Code 1950, §§ 32-10.2, 32-10.3; 1960, c. 507; 1979, c. 711.)

ARTICLE 3. Disease Control Measures.

§ 32.1-42. Emergency rules and regulations.

The Board of Health may promulgate regulations and orders to meet any emergency or to prevent a potential emergency caused by a disease dangerous to public health, including, but not limited to, procedures specifically responding to any disease listed pursuant to § 32.1-35 that is determined to be caused by an agent or substance used as a weapon or any communicable disease of public health threat that is involved in an order of quarantine or an order of isolation pursuant to Article 3.02 (§ 32.1-48.05 et seq.) of this chapter.

(1979, c. 711; 2002, c. 768; 2004, cc. 773, 1021.)

§ 32.1-42.1. Administration and dispensing of necessary drugs and devices during a declared disaster or state of emergency.

The Commissioner, pursuant to § 54.1-3408, may authorize persons who are not authorized by law to administer or dispense drugs or devices to administer or dispense all necessary drugs or devices in accordance with protocols established by the Commissioner when (i) the Governor has declared a disaster or a state of emergency or the United States Secretary of Health and Human Services has issued a declaration of an actual or potential bioterrorism incident or other actual or potential public health emergency; (ii) it is necessary to permit the provision of needed drugs or devices; and (iii) such persons have received the training necessary to safely administer or dispense the needed drugs or devices. Such persons shall administer or dispense all drugs or devices under the direction, control and supervision of the Commissioner. For purposes of this section, "administer," "device," "dispense," and "drug" shall have the same meaning as provided in § 54.1-3401. The Commissioner shall develop protocols, in consultation with the Department of Health Professions, that address the required training of such persons and procedures for such persons to use in administering or dispensing drugs or devices.

(2003, c. 794; 2007.)

§ 32.1-43. Authority of State Health Commissioner to require quarantine, etc.

The State Health Commissioner shall have the authority to require quarantine, isolation, immunization, decontamination, or treatment of any individual or group of individuals when he determines any such measure to be necessary to control the spread of any disease of public health importance and the authority to issue orders of isolation pursuant to Article 3.01 (§ 32.1-48.01 et seq.) of this chapter and orders of quarantine and orders of isolation under exceptional circumstances involving any communicable disease of public health threat pursuant to Article 3.02 (§ 32.1-48.05 et seq.) of this chapter.

(Code 1950, § 32-8; 1979, c. 711; 1990, c. 958; 2004, cc. 773, 1021.)

§ 32.1-44. Isolated or quarantined persons.

The provisions of this chapter shall be construed to allow any isolated or quarantined person to choose his own treatment, whenever practicable and in the best interest of the health and safety of the isolated or quarantined person and the public; however, the conditions of any order of isolation issued pursuant to Article 3.01 (§ 32.1-48.01 et seq.) of this chapter involving a communicable disease of public health significance and any order of quarantine or order of isolation involving any communicable disease of public health threat pursuant to Article 3.02 (§ 32.1-48.05 et seq.) of this chapter shall remain in effect until the person or persons subject to such order of quarantine or order of isolation shall no longer constitute a threat to other persons.

(Code 1950, § 32-13; 1979, c. 711; 1990, c. 958; 2004, cc. 773, 1021.)

§ 32.1-45. Expense of treatment.

Except as specifically provided by law, the provisions of this chapter shall not be construed as relieving any individual of the expense, if any, of any treatment, including any person who is subject to an order of isolation issued pursuant to Article 3.01 (§ 32.1-48.01 et seq.) of this chapter or an order of quarantine or an order of isolation issued pursuant to Article 3.02 (§ 32.1-48.05 et seq.) of this chapter.

(Code 1950, § 32-56; 1973, c. 401; 1979, c. 711; 1990, c. 958; 2004, cc. 773, 1021.)

§ 32.1-45.1. Deemed consent to testing and release of test results related to infection with human immunodeficiency virus or hepatitis B or C viruses.

- A. Whenever any health care provider, or any person employed by or under the direction and control of a health care provider, is directly exposed to body fluids of a patient in a manner which may, according to the then current guidelines of the Centers for Disease Control, transmit human immunodeficiency virus or hepatitis B or C viruses, the patient whose body fluids were involved in the exposure shall be deemed to have consented to testing for infection with human immunodeficiency virus or hepatitis B or C viruses. Such patient shall also be deemed to have consented to the release of such test results to the person who was exposed. In other than emergency situations, it shall be the responsibility of the health care provider to inform patients of this provision prior to providing them with health care services which create a risk of such exposure.
- B. Whenever any patient is directly exposed to body fluids of a health care provider, or of any person employed by or under the direction and control of a health care provider, in a manner which may, according to the then current guidelines of the Centers for Disease Control, transmit human immunodeficiency virus or hepatitis B or C viruses, the person whose body fluids were involved in the exposure shall be deemed to have consented to testing for infection with human immunodeficiency virus or hepatitis B or C viruses. Such person shall also be deemed to have consented to the release of such test results to the patient who was exposed.
- C. For the purposes of this section, "health care provider" means any person, facility or agency licensed or certified to provide care or treatment by the Department of Health, Department of Mental Health, Mental Retardation and Substance Abuse Services, Department of Rehabilitative Services, or the Department of Social Services, any person licensed or certified by a health

regulatory board within the Department of Health Professions except for the Boards of Funeral Directors and Embalmers and Veterinary Medicine or any personal care agency contracting with the Department of Medical Assistance Services.

- D. "Health care provider," as defined in subsection C of this section, shall be deemed to include any person who renders emergency care or assistance, without compensation and in good faith, at the scene of an accident, fire, or any life-threatening emergency, or while en route therefrom to any hospital, medical clinic or doctor's office during the period while rendering such emergency care or assistance. The Department of Health shall provide appropriate counseling and opportunity for face-to-face disclosure of any test results to any such person.
- E. Whenever any law-enforcement officer is directly exposed to body fluids of a person in a manner which may, according to the then current guidelines of the Centers for Disease Control, transmit human immunodeficiency virus or hepatitis B or C viruses, the person whose body fluids were involved in the exposure shall be deemed to have consented to testing for infection with human immunodeficiency virus or hepatitis B or C viruses. Such person shall also be deemed to have consented to the release of such test results to the law-enforcement officer who was exposed. In other than emergency situations, it shall be the responsibility of the law-enforcement officer to inform the person of this provision prior to the contact which creates a risk of such exposure.
- F. Whenever a person is directly exposed to the body fluids of a law-enforcement officer in a manner which may, according to the then current guidelines of the Centers for Disease Control, transmit human immunodeficiency virus or hepatitis B or C viruses, the law-enforcement officer whose body fluids were involved in the exposure shall be deemed to have consented to testing for infection with human immunodeficiency virus or hepatitis B or C viruses. The law-enforcement officer shall also be deemed to have consented to the release of such test results to the person.
- G. For the purposes of this section, "law-enforcement officer" means a person who is both (i) engaged in his public duty at the time of such exposure and (ii) employed by any sheriff's office, any adult or youth correctional facility, or any state or local law-enforcement agency, or any agency or department under the direction and control of the Commonwealth or any local governing body that employs persons who have law-enforcement authority.
- H. Whenever any school board employee is directly exposed to body fluids of any person in a manner which may, according to the then current guidelines of the Centers for Disease Control, transmit human immunodeficiency virus or hepatitis B or C viruses, the person whose body fluids were involved in the exposure shall be deemed to have consented to testing for infection with human immunodeficiency virus or hepatitis B or C viruses. Such person shall also be deemed to have consented to the release of such test results to the school board employee who was exposed. In other than emergency situations, it shall be the responsibility of the school board employee to inform the person of this provision prior to the contact that creates a risk of such exposure.
- I. Whenever any person is directly exposed to the body fluids of a school board employee in a manner that may, according to the then current guidelines of the Centers for Disease Control, transmit human immunodeficiency virus or hepatitis B or C viruses, the school board employee

whose body fluids were involved in the exposure shall be deemed to have consented to testing for infection with human immunodeficiency virus or hepatitis B or C viruses. The school board employee shall also be deemed to have consented to the release of such test results to the person.

- J. For the purposes of this section, "school board employee" means a person who is both (i) acting in the course of employment at the time of such exposure and (ii) employed by any local school board in the Commonwealth.
- K. For purposes of subsection H, if the person to be tested is a minor, consent for such testing shall be obtained from the parent, guardian, or person standing in loco parentis of such minor prior to initiating such testing. If the parent or guardian or person standing in loco parentis withholds such consent, the school board may petition the juvenile and domestic relations district court in the county or city where the minor resides for an order requiring such testing.
- L. Except as provided in subsection K, if the person whose blood specimen is sought for testing refuses to provide such specimen, any person potentially exposed to the human immunodeficiency virus or hepatitis B or C viruses, or the employer of such person, may petition the general district court of the county or city in which the person whose specimen is sought resides or resided, or, in the case of a nonresident, the county or city where the health care provider, law-enforcement agency or school board has its principal office, for an order requiring the person to provide a blood specimen or to submit to testing and to disclose the test results in accordance with this section. At any hearing before the court, the person whose specimen is sought or his counsel may appear. The court shall be advised by the Commissioner or his designee prior to entering any testing order. If a testing order is issued, both the petitioner and the person from whom the blood specimen is sought shall receive counseling and opportunity for face-to-face disclosure of any test results by a licensed practitioner or trained counselor.

(1989, c. 613; 1993, c. 315; 1994, cc. 230, 236; 1997, c. 869; 2003, c. 1.)

§ 32.1-45.2. Public safety employees; testing for blood-borne pathogens; procedure available for certain citizens; definitions.

- A. If, in the course of employment, an employee of a public safety agency is involved in a possible exposure prone incident, the employee shall immediately, or as soon thereafter as practicable, notify the agency of the incident in accordance with the agency's procedures for reporting workplace accidents.
- B. If, after reviewing the facts of the possible exposure prone incident with the employee and after medical consultation, the agency concludes that it is reasonable to believe that an exposure prone incident may have occurred, (i) the agency shall request the person whose body fluids were involved to give informed consent, as provided in § 32.1-37.2, to submit to testing for hepatitis B or C virus and human immunodeficiency virus and to authorize disclosure of the test results or (ii) if the person is deceased, the agency shall request the custodian of the remains to preserve a specimen of blood and shall request the decedent's next of kin to provide informed consent, as provided in § 32.1-37.2, to such testing and to authorize disclosure of the test results.
- C. If a person is involved in a possible exposure prone incident involving the body fluids of an employee of a public safety agency, the person may request the agency to review the facts of the

possible exposure prone incident for purposes of obtaining the employee's informed consent, as provided in § 32.1-37.2, to test for hepatitis B or C virus and human immunodeficiency virus and to authorize disclosure of the test results. If, after reviewing the facts and after medical consultation, the agency concludes it is reasonable to believe an exposure prone incident involving the person and the employee may have occurred, (i) the agency shall request the employee whose body fluids were involved to give informed consent to submit to testing for hepatitis B or C virus and human immunodeficiency virus and to authorize disclosure of the test results or (ii) if the employee is deceased, the agency shall request the custodian of the remains to preserve a specimen of blood and shall request the decedent's next of kin to provide informed consent, as provided in § 32.1-37.2, to such testing and to authorize disclosure of the test results.

- D. If informed consent is refused under subsection B of this section, the public safety agency or the employee may petition the general district court of the city or county in which the person resides or resided, or in the case of a nonresident, the city or county of the public safety agency's principal office, to determine whether an exposure prone incident has occurred and to order testing and disclosure of the test results.

If informed consent is refused under subsection C of this section, the person involved in the possible exposure prone incident may petition the general district court of the city or county of the public safety agency's principal office to determine whether an exposure prone incident has occurred and to order testing and disclosure of the test results.

- E. If the court finds by a preponderance of the evidence that an exposure prone incident has occurred, it shall order testing for hepatitis B or C virus and human immunodeficiency virus and disclosure of the test results. The court shall be advised by the Commissioner or his designee in making this finding. The hearing shall be held in camera as soon as practicable after the petition is filed. The record shall be sealed.
- F. A party may appeal an order of the general district court to the circuit court of the same jurisdiction within ten days from the date of the order. Any such appeal shall be de novo, in camera, and shall be heard as soon as possible by the circuit court. The circuit court shall be advised by the Commissioner or his designee. The record shall be sealed. The order of the circuit court shall be final and nonappealable.
- G. Disclosure of any test results provided by this section shall be made to the district health director of the jurisdiction in which the petition was brought or the district in which the person or employee was tested. The district health director or his designee shall inform the parties of the test results and counsel them in accordance with subsection B of § 32.1-37.2.
- H. The results of the tests shall be confidential as provided in § 32.1-36.1.
- I. No person known or suspected to be positive for infection with hepatitis B or C virus or human immunodeficiency virus shall be refused services for that reason by any public safety agency personnel.
- J. For the purpose of this section and for no other purpose, the term "employee" shall include: (i) any person providing assistance to a person employed by a public safety agency who is directly affected by a possible exposure prone incident as a result of the specific crime or specific

circumstances involved in the assistance and (ii) any victim of or witness to a crime who is directly affected by a possible exposure prone incident as a result of the specific crime.

K. This section shall not be deemed to create any duty on the part of any person where none exists otherwise, and a cause of action shall not arise from any failure to request consent or to consent to testing under this section. The remedies available under this section shall be exclusive.

L. For the purposes of this section, the following terms shall apply:

"Exposure prone incident" means a direct exposure to body fluids of another person in a manner which may, according to the then current guidelines of the Centers for Disease Control, transmit hepatitis B or C virus or human immunodeficiency virus and which occurred during the commission of a criminal act, during the performance of emergency procedures, care or assistance, or in the course of public safety or law-enforcement duties.

"Public safety agency" means any sheriff's office and any adult or youth correctional, law-enforcement, fire safety organization or any agency or department that employs persons who have law-enforcement authority and which is under the direction and control of the Commonwealth or any local governing body.

(1992, c. 711; 1994, c. 146; 1997, cc. 722, 804.)

§ 32.1-45.3. Certain testing of gamete donors required; Board to establish testing protocol.

Any person using donor gametes to treat patients for infertility by artificial insemination, in vitro fertilization, gamete intrafallopian tube transfer, or zygote intrafallopian tube transfer or any other gamete, zygote or embryo transfer or other intervening medical technology using sperm or ova, shall, prior to using any donor gametes for such procedures, ascertain the HIV status of the donor through testing as provided in Board of Health regulations. The Board of Health shall promulgate regulations establishing a testing protocol for gamete donors.

As used in this section:

"Donor" means an individual unrelated by marriage to the recipient who contributes the sperm or ova used in the procedures noted above.

"Gametes" means either sperm or ova.

(1995, c. 519.)

§ 32.1-46. Immunization of patients against certain diseases.

A. The parent, guardian or person standing in loco parentis of each child within this Commonwealth shall cause such child to be immunized in accordance with the Immunization Schedule developed and published by the Centers for Disease Control and Prevention (CDC), Advisory Committee on Immunization Practices (ACIP), the American Academy of Pediatrics (AAP), and the American Academy of Family Physicians (AAFP). The required immunizations for attendance at a public or private elementary, middle or secondary school, child care center, nursery school, family day care home or developmental center shall be those set forth in the

State Board of Health Regulations for the Immunization of School Children. The Board's regulations shall at a minimum require:

1. A minimum of three properly spaced doses of hepatitis B vaccine (HepB).
2. A minimum of three or more properly spaced doses of diphtheria toxoid. One dose shall be administered on or after the fourth birthday. A booster dose shall be administered prior to entering the sixth grade if at least five years have passed since the last dose of diphtheria toxoid.
3. A minimum of three or more properly spaced doses of tetanus toxoid. One dose shall be administered on or after the fourth birthday. A booster dose of Tdap vaccine shall be administered prior to entering the sixth grade if at least five years have passed since the last dose of tetanus toxoid.
4. A minimum of three or more properly spaced doses of acellular pertussis vaccine. One dose shall be administered on or after the fourth birthday. A booster dose shall be administered prior to entry into the sixth grade if at least five years have passed since the last dose of pertussis vaccine.
5. Two or three primary doses of Haemophilus influenzae type b (Hib) vaccine, depending on the manufacturer, for children up to 60 months of age.
6. Two properly spaced doses of live attenuated measles (rubeola) vaccine. The first dose shall be administered at age 12 months or older.
7. One dose of live attenuated rubella vaccine shall be administered at age 12 months or older.
8. One dose of live attenuated mumps vaccine shall be administered at age 12 months or older.
9. All susceptible children born on and after January 1, 1997, shall be required to have one dose of varicella vaccine on or after 12 months.
10. Three or more properly spaced doses of oral polio vaccine (OPV) or inactivated polio vaccine (IPV). One dose shall be administered on or after the fourth birthday. A fourth dose shall be required if the three dose primary series consisted of a combination of OPV and IPV.
11. Two to four doses, dependent on age at first dose, of properly spaced pneumococcal 7-valent conjugate (PVC) vaccine for children less than two years of age.
12. Three doses of properly spaced human papillomavirus (HPV) vaccine for females. The first dose shall be administered before the child enters the sixth grade*.

The parent, guardian or person standing in loco parentis may have such child immunized by a physician or registered nurse or may present the child to the appropriate local health department, which shall administer the vaccines required by the State Board of Health Regulations for the Immunization of School Children without charge.

- B. A physician, registered nurse or local health department administering a vaccine required by this section shall provide to the person who presents the child for immunizations a certificate that shall state the diseases for which the child has been immunized, the numbers of doses given, the dates when administered and any further immunizations indicated.
- C. The vaccines required by this section shall meet the standards prescribed in, and be administered in accordance with, regulations of the Board.
- D. The provisions of this section shall not apply if:
 - 1. The parent or guardian of the child objects thereto on the grounds that the administration of immunizing agents conflicts with his religious tenets or practices, unless an emergency or epidemic of disease has been declared by the Board; or
 - 2. The parent or guardian presents a statement from a physician licensed to practice medicine in Virginia, or a licensed nurse practitioner, that states that the physical condition of the child is such that the administration of one or more of the required immunizing agents would be detrimental to the health of the child; or
 - 3. Because the human papillomavirus is not communicable in a school setting, a parent or guardian, at the parent or guardian's sole discretion, may elect for their child not to receive the human papillomavirus vaccine, after having reviewed materials describing the link between the human papillomavirus and cervical cancer approved for such use by the Board*.
- E. For the purpose of protecting the public health by ensuring that each child receives age-appropriate immunizations, any physician, physician assistant, nurse practitioner, licensed institutional health care provider, local or district health department, the Virginia Immunization Information System, and the Department of Health may share immunization and patient locator information without parental authorization, including, but not limited to, the month, day, and year of each administered immunization; the patient's name, address, telephone number, birth date, and social security number; and the parents' names. The immunization information; the patient's name, address, telephone number, birth date, and social security number; and the parents' names shall be confidential and shall only be shared for the purposes set out in this subsection.
- F. The State Board of Health shall review this section annually and make recommendations for revision by September 1 to the Governor, the General Assembly, and the Joint Commission on Health Care.

2. *Text underlined above shall become effective on October 1, 2008.

(Code 1950, § 32-57.1; 1968, c. 592; 1972, c. 558; 1979, c. 711; 1980, c. 410; 1989, c. 382; 1991, c. 133; 1992, cc. 127, 166; 1994, c. 62; 1995, cc. 729, 742; 1996, cc. 67, 533; 1999, cc. 632, 676, 738; 2000, c. 476; 2004, c. 855; 2005, cc. 643, 684; 2006, cc. 364, 396, 716, 2007.)

§ 32.1-46.01. Virginia Immunization Information System.

- A. The Board of Health shall establish the Virginia Immunization Information System (VIIS), a statewide immunization registry that consolidates patient immunization histories from birth to

death into a complete, accurate, and definitive record that may be made available to participating health care providers throughout Virginia, to the extent funds are appropriated by the General Assembly or otherwise made available. The purposes of VIIS shall be to (i) protect the public health of all citizens of the Commonwealth, (ii) prevent under- and over-immunization of children, (iii) ensure up-to-date recommendations for immunization scheduling to health care providers and the Board, (iv) generate parental reminder and recall notices and manufacturer recalls, (v) develop immunization coverage reports, (vi) identify areas of under-immunized population, and (vii) provide, in the event of a public health emergency, a mechanism for tracking the distribution and administration of immunizations, immune globulins, or other preventive medications or emergency treatments.

B. The Board of Health shall promulgate regulations to implement the VIIS that shall address:

1. Registration of voluntary participants, including, but not limited to, a list of those health care entities that are authorized to participate and any forms and agreements necessary for compliance with the regulations concerning patient privacy promulgated by the federal Department of Health and Human Services;
2. Procedures for confirming, continuing, and terminating participation and disciplining any participant for unauthorized use or disclosure of any VIIS data;
3. Procedures, timelines, and formats for reporting of immunizations by participants;
4. Procedures to provide for a secure system of data entry that may include encrypted online data entry or secure delivery of data files;
5. Procedures for incorporating the data reported on children's immunizations pursuant to subsection E of § 32.1-46;
6. The patient identifying data to be reported, including, but not limited to, the patient's name, date of birth, gender, telephone number, home address, birth place, and mother's maiden name;
7. The patient immunization information to be reported, including, but not necessarily limited to, the type of immunization administered (specified by current procedural terminology (CPT) code or Health Level 7 (HL7) code); date of administration; identity of administering person; lot number; and if present, any contraindications, or religious or medical exemptions;
8. Mechanisms for entering into data-sharing agreements with other state and regional immunization registries for the exchange, on a periodic nonemergency basis and in the event of a public health emergency, of patient immunization information, after receiving, in writing, satisfactory assurances for the preservation of confidentiality, a clear description of the data requested, specific details on the intended use of the data, and the identities of the persons with whom the data will be shared;
9. Procedures for the use of vital statistics data, including, but not necessarily limited to, the linking of birth certificates and death certificates;

10. Procedures for requesting immunization records that are in compliance with the requirements for disclosing health records set forth in § 32.1-127.1:03; such procedures shall address the approved uses for the requested data, to whom the data may be disclosed, and information on the provisions for disclosure of health records pursuant to § 32.1-127.1:03;
11. Procedures for releasing aggregate data, from which personal identifying data has been removed or redacted, to qualified persons for purposes of research, statistical analysis, and reporting; and
12. Procedures for the Commissioner of Health to access and release, as necessary, the data contained in VIIS in the event of an epidemic or an outbreak of any vaccine-preventable disease or the potential epidemic or epidemic of any disease of public health importance, public health significance, or public health threat for which a treatment or vaccine exists.

The Board's regulations shall also include any necessary definitions for the operation of VIIS; however, "health care entity," "health care plan," and "health care provider" shall be as defined in subsection B of § 32.1-127.1:03.

- C. The establishment and implementation of VIIS is hereby declared to be a necessary public health activity to ensure the integrity of the health care system in Virginia and to prevent serious harm and serious threats to the health and safety of individuals and the public. Pursuant to the regulations concerning patient privacy promulgated by the federal Department of Health and Human Services, covered entities may disclose protected health information to the secure system established for VIIS without obtaining consent or authorization for such disclosure. Such protected health information shall be used exclusively for the purposes established in this section.
- D. The Board and Commissioner of Health, any employees of the health department, any voluntary participant, and any person authorized to report or disclose immunization data hereunder shall be immune from civil liability in connection therewith unless such person acted with gross negligence or malicious intent.
- E. This section shall not diminish the responsibility of any physician or other person to maintain accurate patient immunization data or the responsibility of any parent, guardian, or person standing in loco parentis to cause a child to be immunized in accordance with the provisions of § 32.1-46. Further, this section shall not be construed to require the immunization of any person who objects thereto on the grounds that the administration of immunizing agents conflicts with his religious tenets or practices, or any person for whom administration of immunizing agents would be detrimental to his health.

(2005, cc. 643, 684.)

§ 32.1-46.1. Board to establish protocol for identification of children with elevated blood-lead levels.

The Board shall promulgate regulations establishing a protocol for the identification of children at risk for elevated blood-lead levels which shall (i) require blood-lead level testing at appropriate ages and frequencies, when indicated, and (ii) provide for criteria for determining low risk for elevated blood-lead levels and when such blood-lead level testing is not indicated.

As deemed necessary by the Board, the protocol may also address follow-up testing for children with elevated blood-lead levels, dissemination of the protocol or other information to relevant health care professionals, appropriate information for parents, and other means of preventing lead poisoning among children. In promulgating such regulations, the Board shall consider the guidelines of the Centers for Disease Control and Prevention and may consider such other materials relating to lead poisoning prevention, testing, and treatment as it deems appropriate.

(2000, c. 907; 2003, c. 463.)

§. 32.1-46.2. Certain testing or determination of low risk for elevated blood-lead levels required.

In accordance with the protocol required by § 32.1-46.1 and the regulations of the Board of Health promulgated thereto, the parent, guardian or other person standing in loco parentis of each child within the Commonwealth shall cause such child to be tested for elevated blood-lead levels or shall obtain a determination that the child is at low risk for elevated blood-lead levels.

The provisions of this section shall not apply to any child whose parent, guardian or other person having control or charge of such child shall object to such testing on the grounds that the procedure conflicts with his religious tenets or practices.

(2000, c. 907.)

§ 32.1-47. Exclusion from school of children not immunized.

Upon the identification of an outbreak, potential epidemic or epidemic of a vaccine-preventable disease in a public or private school, the Commissioner shall have the authority to require the exclusion from such school of all children who are not immunized against that disease.

(1979, c. 711.)

§ 32.1-48. Powers of Commissioner in epidemic.

- A. Nothing in this article shall preclude the Commissioner from requiring immediate immunization of all persons in case of an epidemic of any disease of public health importance for which a vaccine exists other than a person to whose health the administration of a vaccine would be detrimental as certified in writing by a physician licensed to practice medicine in this Commonwealth.
- B. In addition, the State Health Commissioner shall hold the powers conferred pursuant to Article 3.02 (§ 32.1-48.05 et seq.) of this chapter to issue orders of quarantine or prepare orders of isolation for a communicable disease of public health threat.

(1979, c. 711; 2004, cc. 773, 1021.)

ARTICLE 3.01. Isolation of Certain Persons with Communicable Diseases of Public Health Significance.

§ 32.1-48.01. Definitions.

As used in this article, unless the context requires a different meaning:

"Appropriate precautions" means those specific measures which have been demonstrated by current scientific evidence to assist in preventing transmission of a communicable disease of public health significance. Appropriate precautions will vary according to the disease.

"At-risk behavior" means engaging in acts which a person, who has been informed that he is infected with a communicable disease of public health significance, knows may infect other persons without taking appropriate precautions to protect the health of the other persons.

"Communicable disease of public health significance" means an illness of public health significance, as determined by the State Health Commissioner, caused by a specific or suspected infectious agent that may be transmitted directly or indirectly from one individual to another.

"Communicable disease of public health significance" shall include, but may not be limited to, infections caused by human immunodeficiency viruses, blood-borne pathogens, and tubercle bacillus. The State Health Commissioner may determine that diseases caused by other pathogens constitute communicable diseases of public health significance. Further, "a communicable disease of public health significance" shall become a "communicable disease of public health threat" upon the finding of the State Health Commissioner of exceptional circumstances pursuant to Article 3.02 (§ 32.1-48.05 et seq.) of this chapter.

(1990, c. 958; 2004, cc. 773, 1021.)

§ 32.1-48.02. Investigations of verified reports or medical evidence; counseling; outpatient and emergency treatment orders; custody upon emergency order; application of article.

- A. Upon receiving at least two verified reports or upon receiving medical evidence that any person who is reputed to know that he is infected with a communicable disease of public health significance is engaging in at-risk behavior, the Commissioner or his designee may conduct an investigation through an examination of the records of the Department and other medical records to determine the disease status of the individual and that there is cause to believe he is engaging in at-risk behavior.
- B. If the investigation indicates that the person has a communicable disease of public health significance caused by a non-airborne microorganism and that there is cause to believe he is engaging in at-risk behavior, the Commissioner or his designee may issue an order for such person to report to the local or district health department in the jurisdiction in which he resides to receive counseling on the etiology, effects and prevention of the specific disease of public health significance. The person conducting the counseling shall prepare and submit a report to the Commissioner or his designee on the counseling session or sessions in which he shall document that the person so counseled has been informed about the acts that constitute at-risk behavior, appropriate precautions, and the need to use appropriate precautions. The counselor shall also report any statements indicating the intentions or understanding of the person so counseled.
- C. If the investigation, described in subsection A, indicates that the person has a communicable disease of public health significance caused by an airborne microorganism, such as tubercle bacillus, that causes serious disease and can result in death and that the person has refused or failed to adhere to a prescribed course of treatment and, despite counseling, is engaging in conduct that places uninfected persons at risk of contracting such airborne communicable

disease of public health significance, the Commissioner or his designee may issue an outpatient treatment order for such person to report to the local or district health department in the jurisdiction in which he resides to receive appropriate outpatient treatment and education concerning his disease.

- D. If the investigation, described in subsection A, indicates that the person has a communicable disease of public health significance caused by an airborne microorganism, such as tubercle bacillus, which causes serious disease and can result in death and, despite documented and appropriate counseling, is engaging in conduct that unreasonably places uninfected persons at risk of contracting such airborne communicable disease of public health significance, such as tuberculosis, and medical data demonstrate that he poses an imminent threat to the health of others, the Commissioner may issue an emergency order requiring such person to be taken immediately into custody and placed, for a period, not to exceed 48 hours, in the least restrictive, willing facility providing protection of the health of others and appropriate treatment to the person upon finding that at least one of the following conditions is met:
1. The person has refused or failed to report to the local health department after having been ordered to do so pursuant to subsection C, for appropriate outpatient treatment and education concerning his disease;
 2. The person has a documented history of failure to adhere to a prescribed course of treatment; or
 3. Documentation exists that the person has indicated that he will not comply with the prescribed treatment.

If the specified 48-hour period terminates on a Saturday, Sunday or legal holiday, such person may be detained until the next day which is not a Saturday, Sunday, or legal holiday. During this period, the Commissioner shall proceed in accordance with § 32.1-48.03.

- E. In order to implement an emergency order issued pursuant to subsection D of this section, all state and local law-enforcement officers are authorized to take custody of the subject of such emergency order immediately upon issuance of the emergency order by the Commissioner.
- F. The provisions of this article shall only apply to communicable diseases of public health significance and shall not apply to communicable diseases of public health threat.

(1990, c. 958; 1993, c. 705; 2001, c. 837; 2004, cc. 773, 1021.)

§ 32.1-48.03. Petition for hearing; temporary detention.

- A. Upon receiving a verified report or upon receiving medical evidence that any person who has been counseled pursuant to § 32.1-48.02 has continued to engage in at-risk behavior, the Commissioner or his designee may petition the general district court of the county or city in which such person resides to order the person to appear before the court to determine whether isolation is necessary to protect the public health from the risk of infection with a communicable disease of public health significance.

- B. If such person cannot be conveniently brought before the court, the court may issue an order of temporary detention. The officer executing the order of temporary detention shall order such person to remain confined in his home or another's residence or in some convenient and willing institution or other willing place for a period not to exceed 48 hours prior to a hearing. An electronic device may be used to enforce such detention in the person's home or another's residence. The institution or other place of temporary detention shall not include a jail or other place of confinement for persons charged with criminal offenses.

If the specified 48-hour period terminates on a Saturday, Sunday, legal holiday or day on which the court is lawfully closed, such person may be detained until the next day which is not a Saturday, Sunday, legal holiday or day on which the court is lawfully closed.

- C. Any person ordered to appear before the court pursuant to this section shall be informed of his right to be represented by counsel. The court shall provide the person with reasonable opportunity to employ counsel at his own expense, if so requested. If the person is not represented by counsel, the court shall appoint an attorney-at-law to represent him. Counsel so appointed shall be paid a fee of \$75 and his necessary expenses.

(1990, c. 958; 2001, c. 837; 2004, cc. 773, 1021.)

§ 32.1-48.04. Isolation hearing; conditions; order for isolation; right to appeal.

- A. The isolation hearing shall be held within 48 hours of the execution of any temporary detention order issued or, if the 48-hour period terminates on a Saturday, Sunday, legal holiday or day on which the court is lawfully closed, the isolation hearing shall be the next day that is not a Saturday, Sunday, legal holiday or day on which the court is lawfully closed.

Prior to the hearing, the court shall fully inform the person who is infected with the communicable disease of public health significance of the basis for his detention, if any, the basis upon which he may be isolated, and the right of appeal of its decision.

- B. An order for isolation in the person's home or another's residence or an institution or other place, including a jail when no other reasonable alternative is available, may be issued upon a finding by the court that the following conditions are met:

1. The person is infected with a communicable disease of public health significance.
2. The person is engaging in at-risk behavior.
3. The person has demonstrated an intentional disregard for the health of the public by engaging in behavior which has placed others at risk for infection with the communicable disease of public health significance.
4. There is no other reasonable alternative means of reducing the risk to public health.

- C. Any order for isolation in the person's home or another's residence or an institution or other place shall be valid for no more than 120 days, or for a shorter period of time if the Commissioner or his designee, or the court upon petition, determines that the person no longer poses a substantial threat to the health of others. Orders for isolation in the person's home or

another's residence may be enforced through the use of electronic devices. Orders for isolation may include additional requirements such as participation in counseling or education programs. The court may, upon finding that the person no longer poses a substantial threat to the health of others, issue an order solely for participation in counseling or educational programs.

- D. Isolation orders shall not be renewed without affording the person all rights conferred in this article.

Any person under an isolation order pursuant to this section shall have the right to appeal such order to the circuit court in the jurisdiction in which he resides. Such appeal shall be filed within 30 days from the date of the order. Notwithstanding the provisions of § 19.2-241 relating to the time within which the court shall set criminal cases for trial, any appeal of an isolation order shall be given priority over all other pending matters before the court, except those matters under appeal pursuant to § 37.2-821, and shall be heard as soon possible by the court. The clerk of the court from which an appeal is taken shall immediately transmit the record to the clerk of the appellate court.

The appeal shall be heard *de novo*. An order continuing the isolation shall only be entered if the conditions set forth in subsection B are met at the time the appeal is heard.

If the person under an isolation order is not represented by counsel, the judge shall appoint an attorney-at-law to represent him. Counsel so appointed shall be paid a fee of \$150 and his necessary expenses. The order of the court from which the appeal is taken shall be defended by the attorney for the Commonwealth.

(1990, c. 958; 2001, c. 837; 2004, cc. 773, 1021.)

ARTICLE 3.02. Quarantine and Isolation of Persons with Communicable Diseases of Public Health Threat.

§ 32.1-48.05. Application of article; determination of exceptional circumstances; regulations; duties of the State Health Commissioner not be delegated.

- A. Upon a determination by the State Health Commissioner that exceptional circumstances exist relating to one or more persons in the Commonwealth who are known to have been exposed to or infected with or reasonably suspected to have been exposed to or infected with a communicable disease of public health threat and that such exceptional circumstances render the procedures of Article 3.01 (§ 32.1-48.01 et seq.) of this chapter to be insufficient control measures or that the individuals have failed or refused to comply voluntarily with the control measures directed by the State Health Commissioner in response to a communicable disease of public health threat, the State Health Commissioner may invoke the provisions of this article relating to quarantine and isolation.
- B. The Board of Health shall promulgate regulations for the implementation of this article that shall (i) address the circumstances that are subject to the application of Article 3.01 (§ 32.1-48.01 et seq.) of this chapter and the exceptional circumstances in which this article may be invoked by the State Health Commissioner; (ii) provide procedures to assure that any quarantine or isolation is implemented in the least restrictive environment; (iii) ensure that the essential needs of

persons subject to an order of isolation issued pursuant to this article shall be met, including, but not limited to, food, water, and health care, e.g., medications, therapies, testing, and durable medical equipment; (iv) provide procedures for proper notice of orders of quarantine and orders of isolation; (v) provide procedures for the State Health Commissioner to issue an emergency detention order for persons for whom he has probable cause to believe that they may fail or refuse to comply with an order of quarantine or an order of isolation; and (vi) address any other issue or procedure covered herein that the Board deems to be properly the subject of regulation.

- C. The powers granted to the State Health Commissioner pursuant to this article shall not be delegated to or invoked by any local or district health department director. However, in the event the State Health Commissioner, duly appointed and confirmed pursuant to § 32.1-17, shall be unable to perform his duties pursuant to this article, any Deputy Commissioner, appointed by the State Health Commissioner and approved by the Board pursuant to § 32.1-22, shall be authorized to invoke the provisions of this article.

(2004, cc. 773, 1021.)

§ 32.1-48.06. Definitions.

As used in this article, unless the context requires a different meaning:

"Affected area" means any part or the whole of the Commonwealth, which has been identified as where persons reside, or may be located, who are known to have been exposed to or infected with or who are reasonably suspected to have been exposed to or infected with a communicable disease of public health threat. "Affected area" shall include, but not limited to, cities, counties, towns, and subsections of such areas, public and private property, buildings, and other structures.

"Communicable disease of public health threat" means an illness of public health significance, as determined by the State Health Commissioner in accordance with regulations of the Board of Health, caused by a specific or suspected infectious agent that may be reasonably expected or is known to be readily transmitted directly or indirectly from one individual to another and has been found to create a risk of death or significant injury or impairment; this definition shall not, however, be construed to include human immunodeficiency viruses or tuberculosis, unless used as a bioterrorism weapon. "Individual" shall include any companion animal. Further, whenever "person or persons" is used herein it shall be deemed, when the context requires it, to include any individual.

"Companion animal" means, consistent with the provisions of § 3.1-796.66, any domestic or feral dog, domestic or feral cat, nonhuman primate, guinea pig, hamster, rabbit not raised for human food or fiber, exotic or native animal, reptile, exotic or native bird, or any feral animal or any animal under the care, custody, or ownership of a person or any animal that is bought, sold, traded, or bartered by any person. Agricultural animals, game species, or any animals regulated under federal law as research animals shall not be considered companion animals for the purposes of this article.

"Isolation" means the physical separation, including confinement or restriction of movement, of an individual or individuals who are infected with or are reasonably suspected to be infected with a communicable disease of public health threat in order to prevent or limit the transmission of the communicable disease of public health threat to other uninfected and unexposed individuals.

"Law-enforcement agency" means any sheriff's office, police department, adult or youth correctional officer, or other agency or department that employs persons who have law-enforcement authority that is under the direction and control of the Commonwealth or any local governing body. "Law-enforcement agency" shall include, by order of the Governor, the Virginia National Guard.

"Quarantine" means the physical separation, including confinement or restriction of movement, of an individual or individuals who are present within an affected area, as defined herein, or who are known to have been exposed or may reasonably be suspected to have been exposed to a communicable disease of public health threat and who do not yet show signs or symptoms of infection with the communicable disease of public health threat in order to prevent or limit the transmission of the communicable disease of public health threat to other unexposed and uninfected individuals.

(2004, cc. 773, 1021.)

§ 32.1-48.07. Conditions for invoking the provisions of this article.

A. Prior to issuing any order of quarantine or any order of isolation pursuant to this article, the State Health Commissioner shall ensure that:

1. Any quarantine or isolation is implemented in the least restrictive environment necessary to contain the communicable disease of public health threat;
2. Any quarantined persons shall be confined separately from any isolated persons, to the maximum extent practicable;
3. Upon determining that any quarantined person can be reasonably believed to have become infected with a communicable disease of public health threat, the infected person shall be promptly removed from quarantine and placed in isolation;
4. The health and disease status of any quarantined and isolated persons shall be monitored regularly to determine if such persons require continued quarantine or isolation;
5. Any quarantined or isolated persons shall be immediately released from quarantine or isolation upon a determination by the State Health Commissioner that such quarantined or isolated persons pose no risk of transmitting the communicable disease of public health threat to other persons; and
6. The site of any quarantine or isolation shall be, to the extent practicable, safely and hygienically maintained with adequate food, clothing, health care, and other essential needs made available to the persons who are subject to any order of quarantine or isolation.

B. All persons subject to an order of quarantine or an order of isolation shall comply with the order and the conditions governing their quarantine or isolation.

C. In the case of any person who has been quarantined or isolated in a location other than a medical care facility, the State Health Commissioner shall authorize health care professionals to enter the premises of quarantine or isolation. No person, other than such authorized health care professionals, shall enter the premises of quarantine or isolation, unless authorized by the State

Health Commissioner. Upon determining that any person, who has entered the premises of quarantine or isolation, poses a threat to public health and safety, the State Health Commissioner may quarantine or isolate such person.

(2004, cc. 773, 1021.)

§ 32.1-48.08. Declaration of quarantine.

- A. The State Health Commissioner may declare a quarantine of any person or persons or any affected area after he finds that the quarantine is the necessary means to contain a communicable disease of public health threat as defined in § 32.1-48.06 to which such person or persons or the people of an affected area have been or may have been exposed and thus may become infected.
- B. The State Health Commissioner shall record his findings and any information on which he has relied in making the finding required for quarantine pursuant to subsection A. The State Health Commissioner's record of findings concerning any communicable disease of public health threat shall be confidential and shall not be disclosed in accordance with subdivision 17 of § 2.2-3705.5.
- C. The State Health Commissioner may order the quarantined person or persons to remain in their residences, to remain in another place where they are present, or to report to a place or places designated by the State Health Commissioner for the duration of their quarantine. An electronic device may be used to enforce any such quarantine. The Commissioner's order of quarantine shall be for a duration consistent with the known incubation period for such disease or, if the incubation period is unknown, for a period anticipated as being consistent with the incubation period for other similar infectious agents.

(2004, cc. 773, 1021.)

§ 32.1-48.09. Order of quarantine.

- A. The State Health Commissioner shall, prior to placing any person or persons under quarantine, issue an order of quarantine that shall: (i) identify the communicable disease of public health threat that is reasonably believed to be involved and the reasons why exceptional circumstances apply and the quarantine is the necessary means to contain the risks of transmission of the disease; (ii) contain sufficient information to provide reasonable notice to persons who are affected by the order of quarantine that they are subject to the order; (iii) specify the means by which the quarantine is to be implemented; (iv) establish clearly the geographic parameters of the quarantine, if involving an affected area; (v) specify the duration of the quarantine; (vi) provide sufficient directions for compliance with the quarantine to enable persons subject to the order to comply; (vii) provide timely opportunities, if not readily available under the circumstances, for the person or persons who are subject to the order to notify employers, next of kin or legally authorized representatives and the attorneys of their choice of the situation; (viii) specify the penalty or penalties that may be imposed for noncompliance with the order of quarantine pursuant to § 32.1-27; and (ix) include a copy of § 32.1-48.010 to inform any person or persons subject to an order of quarantine of the right to seek judicial review of the order.
- B. No affected area shall be the subject to an order of quarantine issued by the State Health Commissioner unless the Governor, pursuant to the authority vested in him pursuant to Chapter

3.2 (§ 44-146.13 et seq.) of Title 44, has declared a state of emergency for such affected area of the Commonwealth.

- C. The order of quarantine shall be delivered to any person or persons affected by the quarantine, in so far as practicable. However, if, in the opinion of the State Health Commissioner, the number of quarantined persons is too great to make delivery of copies of the order of quarantine to each person possible in a timely manner, or if the order of quarantine designates an affected area instead of a specific person or persons, the State Health Commissioner shall cause the order of quarantine to be communicated to the persons residing or located in the affected area.
- D. The State Health Commissioner or his legal representative shall, as soon as practicable following the issuance of an order of quarantine, file a petition seeking an ex parte court review and confirmation of the quarantine.
- E. The petition shall be filed in the circuit court for the city or county in which the person or persons resides or, in the case of an affected area, in the circuit court of the affected jurisdiction or jurisdictions.

The petition shall include (i) a copy of the order of quarantine or all information contained in the State Health Commissioner's order of quarantine in some other format and (ii) a summary of the findings on which the Commissioner relied in deciding to issue the order of quarantine.

Upon receiving multiple orders of quarantine, the court may, on the motion of any party or on the court's own motion, consolidate the cases into a single proceeding for all orders when (i) there are common questions of law or fact relating to the individual claims or rights to be determined, (ii) the claims of the consolidated cases are substantially similar, and (iii) all parties to the orders will be adequately represented in the consolidation.

- F. Prior to the expiration of the original order of quarantine, the Commissioner may extend the duration of the original order upon finding that such an extension is necessary. The Commissioner, or his legal representative, shall, as soon as practicable following the extension of an order of quarantine, file a petition seeking court review and confirmation of the order to extend the duration of the quarantine.
- G. In reviewing the petition for review and confirmation of the order of quarantine or an extension of the order of quarantine, the court shall give due deference to the specialized expertise of the State Health Commissioner. The court shall grant the petition to extend the quarantine upon finding probable cause that quarantine was the necessary means to contain the disease of public health threat and is being implemented in the least restrictive environment to address the public health threat effectively, given the reasonably available information on effective control measures and the nature of the communicable disease of public health threat.
- H. The State Health Commissioner may, if he reasonably believes that public disclosure of the information contained in the order of quarantine or the petition for court review and confirmation or extension of the order of quarantine will exacerbate the public health threat or compromise any current or future criminal investigation or compromise national security, file some or all of any petition relating to an order of quarantine under seal. After reviewing any

information filed under seal by the State Health Commissioner, the court shall reseal the relevant materials to the extent necessary to protect public health and safety.

- I. The State Health Commissioner shall ensure that the protected health information of any person or persons subject to the order of quarantine shall only be disclosed in compliance with § 32.1-127.1:03 of this title and the regulations relating to privacy of health records promulgated by the federal Department of Health and Human Services pursuant to the Health Insurance Portability and Accountability Act of 1996 (42 U.S.C. § 1320d et seq.).
- J. Any law-enforcement officer, state or local health department employee, or any other person designated by a law-enforcement officer or state or local health department employee is empowered and authorized to deliver an order of quarantine.

(2004, cc. 773, 1021.)

§ 32.1-48.010. Appeal of any order of quarantine.

- A. Any person or persons subject to an order of quarantine or a court-ordered extension of any such order pursuant to this article may file an appeal of the order of quarantine as such order applies to such person or persons in the circuit court for the city or county in which the subject or subjects of the order reside or are located or the circuit court for the jurisdiction or jurisdictions for any affected area. Any petition for appeal shall be in writing, shall set forth the grounds on which the order of quarantine is being challenged vis-a-vis the subject person or persons or affected area, and shall be served upon the State Health Commissioner or his legal representative.
- B. A hearing on the appeal of the order of quarantine shall be held within 48 hours of the filing of the petition for appeal or, if the 48-hour period terminates on a Saturday, Sunday, legal holiday or day on which the court is lawfully closed, the hearing shall be held on the next day that is not a Saturday, Sunday, legal holiday or day on which the court is lawfully closed.

In extraordinary circumstances, for good cause shown, the Commissioner may request a continuance of the hearing, which the court shall only grant after giving due regard to the rights of the affected individuals, the protection of the public health and safety, the severity of the emergency, and the availability of witnesses and evidence.
- C. Any person appealing an order of quarantine shall have the burden of proving that he is not properly the subject of the order of quarantine.
- D. The filing of an appeal shall not stay any order of quarantine.
- E. Upon receiving multiple appeals of an order of quarantine that applies to a group of persons or an affected area, the court may, on the motion of any party or on the court's own motion, consolidate the cases in a single proceeding for all appeals when (i) there are common questions of law or fact relating to the individual claims or rights to be determined; (ii) the claims of the consolidated cases are substantially similar; and (iii) all parties to the appeals will be adequately represented in the consolidation.

- F. The circuit court shall not conduct a de novo review of the order of quarantine; however, the court shall consider the existing record and such supplemental evidence as the court shall consider relevant. The court shall conduct the hearing on an appeal of an order of quarantine in a manner that will protect the health and safety of court personnel, counsels, witnesses, and the general public and in accordance with rules of the Supreme Court of Virginia pursuant to subsection C of § 17.1-503. The court may, for good cause shown, hold all or any portion of the hearings in camera upon motion of any party or upon the court's own motion.
- G. Upon completion of the hearing, the court may (i) vacate or modify the order of quarantine as such order applies to any person who filed the appeal and who is not, according to the record and the supplemental evidence, appropriately subject to the order of quarantine; (ii) vacate or modify the order of quarantine as such order applies to all persons who filed an appeal and who are not, according to the record and the supplemental evidence, appropriately subject to the order of quarantine; (iii) confirm the order of quarantine as it applies to any person or all appealing parties upon a finding that such person or persons are appropriately subject to the order of quarantine and that quarantine is being implemented in the least restrictive environment to address the public health threat effectively, given the reasonably available information on effective control measures and the nature of the communicable disease of public health threat; or (iv) confirm the order of quarantine as it applies to all persons subject to the order upon finding that all such persons are appropriately subject to the order of quarantine and that quarantine is being implemented in the least restrictive environment to address the public health threat effectively, given the reasonably available information on effective control measures and the nature of the communicable disease of public health threat.

In any case in which the court shall vacate the order of quarantine as it applies to any person who has filed a request for review of such order and who is subject to such order or as it applies to all persons seeking judicial review who are subject to such order, the person or persons shall be immediately released from quarantine unless such order to vacate the quarantine shall be stayed by the filing of an appeal to the Supreme Court of Virginia. Any party to the case may file an appeal of the circuit court decisions to the Supreme Court of Virginia. Parties to the case shall include any person who is subject to an order of quarantine and has filed an appeal of such order with the circuit court and the State Health Commissioner.

- H. Appeals of any final order of any circuit court regarding the State Health Commissioner's petition for review and confirmation or extension of an order of quarantine or any appeal of an order of quarantine by a person or persons who are subject to such order shall be appealable directly to the Supreme Court of Virginia, with an expedited review in accordance with the rules of the court pursuant to subsection C of § 17.1-503.
- I. Appeals of any circuit court order relating to an order of quarantine shall not stay any order of quarantine.
- J. Persons requesting judicial review of any order of quarantine shall have the right to be represented by an attorney in all proceedings. If the person is unable to afford an attorney, counsel shall be appointed for the person by the circuit court for the jurisdiction in which the person or persons who are subject to the order of quarantine reside or, in the case of an affected area, by the circuit court for the jurisdiction or jurisdictions for the affected area. Counsel so

appointed shall be paid at a rate established by the Supreme Court of Virginia from the Commonwealth's criminal fund.

(2004, cc. 773, 1021.)

§ 32.1-48.011. Isolation may be ordered under certain exceptional circumstances; Commissioner authorized to require hospitalization or other health care.

- A. Whenever the State Health Commissioner makes a determination of exceptional circumstances pursuant to § 32.1-48.05 and that the isolation procedures set forth in Article 3.01 (§ 32.1-48.01 et seq.) of this chapter are insufficient control measures to contain a communicable disease of public health threat, the isolation procedures herein may be invoked.
- B. The State Health Commissioner may order the isolation of a person or persons upon a finding that (i) such person or persons are infected with or may reasonably be suspected to be infected with a communicable disease of public health threat and (ii) isolation is necessary to protect the public health, to ensure such isolated person or persons receive appropriate medical treatment, and to protect health care providers and others who may come into contact with such infected person or persons.
- C. The State Health Commissioner shall record his findings and any information on which he has relied in making the finding required for isolation pursuant to this section. The State Health Commissioner's record of findings concerning any communicable disease of public health threat that is involved in an order of isolation shall be confidential and shall not be disclosed in accordance with subdivision 17 of § 2.2-3705.5.
- D. The Commissioner may order the isolated person or persons to remain in their places of residence, to remain in another place where they are present, or to report to a place or facility designated by the Commissioner for the duration of their isolation. An electronic device may be used to enforce any such isolation. The Commissioner's order of isolation shall be for a duration consistent with the known course of such communicable disease of public health threat or, if the course of the disease is unknown or uncertain, for a period consistent with the probable course of the communicable disease of public health threat.
- E. To the extent that persons subject to an order of isolation pursuant to this article require hospitalization or other health care services, the State Health Commissioner shall be authorized to require that such services be provided.
- F. The State Health Commissioner shall also have the authority to monitor the medical condition of any person or persons subject to an order of isolation pursuant to this article through regular visits by public health nurses or such other means as the Commissioner shall determine to be necessary.

(2004, cc. 773, 1021.)

§ 32.1-48.012. Isolation order.

- A. The State Health Commissioner shall, prior to placing any person or persons in isolation, prepare a written order of isolation that shall: (i) identify the person or persons subject to such order of isolation; (ii) identify the site of isolation, which may, in the Commissioner's discretion,

include the residence of any isolated individual; (iii) specify the date and time that isolation is to commence; (iv) identify the communicable disease of public health threat or the suspected communicable disease of public health threat with which the person or persons are known to be infected or reasonably suspected to be infected; (v) specify the bases for isolation, including why isolation is the necessary means to contain transmission of the disease, and any conditions of the isolation; (vi) provide timely opportunities, if not readily available under the circumstances, for the person or person who are subject to the order to notify employers, next of kin or legally authorized representatives and the attorneys of their choice of the situation; (vii) specify the penalty or penalties that may be imposed for noncompliance with order of isolation pursuant to § 32.1-27; and (viii) include a copy of § 32.1-48.013 to inform any person or persons subject to an order of isolation of the right to seek judicial review or the order.

- B. No affected area shall be the subject of an order of isolation prepared by the State Health Commissioner unless the Governor, pursuant to the authority vested in him pursuant to Chapter 3.2 (§ 44-146.13 et seq.) of Title 44, has declared a state of emergency for such affected area of the Commonwealth.
- C. The order of isolation shall be delivered to any person or persons affected by the isolation, in so far as practicable. However, if, in the opinion of the State Health Commissioner, the number of isolated persons is too great to make delivery of copies of the order of isolation to each person possible in a timely manner, or if the order of isolation designates an affected area instead of a specific person or persons, the State Health Commissioner shall cause the order of isolation to be communicated to the persons residing or located in the affected area.
- D. The State Health Commissioner shall, as soon as practicable following the issuance of an order of isolation, file a petition seeking an ex parte court order to review and confirm the isolation.
- E. The petition shall be filed in the circuit court for the city or county in which the person or persons resides or is located or, in the case of an affected area, in the circuit court of the affected jurisdiction or jurisdictions.

Upon receiving multiple orders of isolation, the court may, on the motion of any party or on the court's own motion, consolidate the cases into a single proceeding for all orders when (i) there are common questions of law or fact relating to the individual claims or rights to be determined, (ii) the claims of the cases are substantially similar, and (iii) all parties to the orders will be adequately represented in the consolidation.

- F. The petition shall include (i) a copy of the order of isolation or all information contained in the State Health Commissioner's order of isolation in some other format and (ii) a summary of the findings on which the Commissioner relied in determining that an order of isolation was required to contain the transmission of the communicable disease of public health threat.
- G. Prior to the expiration of the original order of isolation, the Commissioner may extend the duration of the original order upon finding that such an extension is necessary. The Commissioner, or his legal representative, shall, as soon as practicable following the extension of an order of isolation, file a petition seeking court review and confirmation of the order to extend the duration of the isolation.

- H. In reviewing any petition for review and confirmation or extension of the order of isolation, the court shall give due deference to the specialized expertise of the State Health Commissioner. The court shall grant the petition to confirm or extend the isolation upon finding probable cause that isolation was the necessary means and remains the least restrictive environment to address the public health threat effectively, given the reasonably available information on effective control measures and the nature of the communicable disease of public health threat.
- I. The State Health Commissioner may, if he reasonably believes that public disclosure of the information contained in the order of isolation or the petition for review and confirmation or extension of the order of isolation will exacerbate the public health threat or compromise any current or future criminal investigation or compromise national security, file some or all of any petition to extend an order of isolation under seal. After reviewing any information filed under seal by the State Health Commissioner, the court shall reseal the relevant materials to the extent necessary to protect public health and safety.
- J. The State Health Commissioner shall ensure that the protected health information of any person or persons subject to the order of isolation shall only be disclosed in compliance with the regulations relating to privacy of health records promulgated by the federal Department of Health and Human Services pursuant to the Health Insurance Portability and Accountability Act of 1996.
- K. Any law-enforcement officer, state or local health department employee, or any other person designated by a law-enforcement officer or state or local health department employee is empowered and authorized to deliver an order of isolation.

(2004, cc. 773, 1021.)

§ 32.1-48.013. Appeal of any order of isolation.

- A. Any person or persons subject to an order of isolation or a court-ordered confirmation or extension of any such order pursuant to this article may file an appeal of the order of isolation in the circuit court for the city or county in which such person or persons reside or, in the case of an affected area, in the circuit court for any affected jurisdiction or jurisdictions. Any petition for appeal shall be in writing, shall set forth the grounds on which the order of isolation is being challenged vis-a-vis the subject person or persons or affected area, and shall be served upon the State Health Commissioner or his legal representative.
- B. A hearing on the appeal of the order of isolation shall be held within 48 hours of the filing of the petition for appeal or, if the 48-hour period terminates on a Saturday, Sunday, legal holiday or day on which the court is lawfully closed, the hearing shall be held on the next day that is not a Saturday, Sunday, legal holiday or day on which the court is lawfully closed.

In extraordinary circumstances, for good cause shown, the Commissioner may request a continuance of the hearing, which the court shall only grant after giving due regard to the rights of the affected individuals, the protection of the public health and safety, the severity of the emergency, and the availability of witnesses and evidence.

- C. Any person appealing an order of isolation shall have the burden of proving that he is not properly the subject of the order of isolation.

- D. An appeal shall not stay any order of isolation.
- E. Upon receiving multiple appeals of an order of isolation, the court may, on the motion of any party or on the court's own motion, consolidate the cases in a single proceeding for all appeals when (i) there are common questions of law or fact relating to the individual claims or rights to be determined; (ii) the claims of the consolidated cases are substantially similar; and (iii) all parties to the appeals will be adequately represented in the consolidation.
- F. The circuit court shall not conduct a de novo review of the order of isolation; however, the court shall consider the existing record and such supplemental evidence as the court shall consider relevant. The court shall conduct the hearing on an appeal of an order of isolation in a manner that will protect the health and safety of court personnel, counsels, witnesses, and the general public and in accordance with rules of the Supreme Court of Virginia pursuant to subsection C of § 17.1-503. The court may, for good cause shown, hold all or any portion of the hearings in camera upon motion of any party or the court's own motion.
- G. Upon completion of the hearing, the court may (i) vacate or modify the order of isolation as such order applies to any person who filed the appeal and who is not, according to the record and the supplemental evidence, appropriately subject to the order of isolation; (ii) vacate or modify the order of isolation as such order applies to all persons who filed an appeal and who are not, according to the record and the supplemental evidence, appropriately subject to the order of isolation; (iii) confirm the order of isolation as it applies to any person or all appealing parties upon a finding that such person or persons are appropriately subject to the order of isolation and that isolation is being implemented in the least restrictive environment to address the public health threat effectively, given the reasonably available information on effective infection control measures and the nature of the communicable disease of public health threat; or (iv) confirm the order of isolation as it applies to all persons subject to the order upon finding that all such persons are appropriately subject to the order of isolation and that isolation is being implemented in the least restrictive environment to address the public health threat effectively given the reasonably available information on effective control measures and the nature of the communicable disease of public health threat.

In any case in which the court shall vacate the order of isolation as it applies to any person who has filed a request for review of such order and who is subject to such order or as it applies to all persons seeking judicial review who are subject to such order, the person or persons shall be immediately released from isolation unless such order to vacate the isolation shall be stayed by the filing of an appeal to the Supreme Court of Virginia. Any party to the case may file an appeal of the circuit court decisions to the Supreme Court of Virginia. Parties to the case shall include any person who is subject to an order of isolation and has filed an appeal of such order with the circuit court and the State Health Commissioner.

- H. Appeals of any final order of any circuit court regarding the State Health Commissioner's petition for review and confirmation or extension of an order of isolation or any appeal of an order of isolation by a person or persons who are subject to such order shall be appealable directly to the Supreme Court of Virginia, with an expedited review in accordance with the rules of the court pursuant to subsection C of § 17.1-503.

- I. Appeals of any circuit court order relating to an order of isolation shall not stay any order of isolation.
- J. Persons appealing any order of isolation shall have the right to be represented by an attorney in all proceedings. If the person is unable to afford an attorney, counsel shall be appointed for the person by the circuit court for the jurisdiction in which the person or persons who are subject to the order of isolation reside or, in the case of an affected area, by the circuit court for the jurisdiction or jurisdictions for the affected area. Counsel so appointed shall be paid at a rate established by the Supreme Court of Virginia from the Commonwealth's criminal fund.

(2004, cc. 773, 1021.)

§ 32.1-48.013:1. Electronic filings as protection from communicable disease.

Notwithstanding Rule 1:17 of the Supreme Court of Virginia, a court in its discretion may permit the electronic or facsimile filing of a petition, notice, brief, notice of appeal, or other legal document when such filing is necessary to expedite the proceedings or to protect the public, court officials, or others participating in the proceedings from exposure to a communicable disease. (2007.)

§ 32.1-48.014. Enforcement of orders of quarantine or isolation; penalties.

- A. Any person who does not comply with a validly issued order of quarantine or order of isolation issued or prepared pursuant to this article shall be subject to the penalties provided in § 32.1-27, including, upon conviction, a Class 1 misdemeanor and payment of civil penalties.
- B. Any order of quarantine or isolation shall be enforced by law-enforcement agencies, as directed by the State Health Commissioner. Any enforcement authority directed to law-enforcement agencies by the Commissioner shall expressly include, but need not be limited to, the power to detain or arrest any person or persons identified as in violation of any order of quarantine or isolation, or for whom probable cause exists that he may fail or refuse to comply with any such order.

Any person or persons so detained shall be held in the least restrictive environment that can provide any required health care or other services for such person.

- C. Every attorney for the Commonwealth shall have the duty to prosecute, without delay, any violation of this chapter in accordance with the penalties set forth in § 32.1-27.
- D. Pursuant to 42 U.S.C. 264 et seq. and 42 C. F. R. Parts 70 and 71, and order of quarantine or isolation issued by the Director of the Centers for Disease Control and Prevention affecting the Commonwealth or the Metropolitan Washington Airports Authority may be enforced by local law-enforcement officers or officers of the Metropolitan Washington Airports Authority with jurisdiction over the facility involved in the quarantine or isolation order.

(2004, cc. 773, 1021; 2007.)

§ 32.1-48.015. Authorization to disclose health records.

- A. The provisions of this article are hereby declared to be necessary to prevent serious harm and serious threats to the health and safety of individuals and the public in Virginia for purposes of

authorizing the State Health Commissioner or his designee to examine and review any health records of any person or persons subject to any order of quarantine or order of isolation pursuant to this article and the regulations of the Department of Health and Human Services promulgated in compliance with the Health Insurance Portability and Accountability Act of 1996, as amended. The State Health Commissioner shall authorize any designee in writing to so examine and review any health records of any person or persons subject to any order of quarantine or order of isolation pursuant to this article.

- B. Pursuant to the regulations concerning patient privacy promulgated by the federal Department of Health and Human Services, covered entities may disclose protected health information to the State Health Commissioner or his designee without obtaining consent or authorization for such disclosure from the person who is the subject of the records. Such protected health information shall be used to facilitate the health care of any person or persons who are subject to an order of quarantine or an order of isolation. The State Health Commissioner or his designee shall only redisclose such protected health information in compliance with the aforementioned federal regulations. Further, the protected health information disclosed to the State Health Commissioner or his designee shall be held confidential and shall not be disclosed pursuant to the provisions of subdivision 17 of § 2.2-3705.5.
- C. Pursuant to subsection G of § 32.1-116.3, any person requesting or requiring any employee of a public safety agency as defined in subsection J of § 32.1-45.2 to arrest, transfer, or otherwise exercise custodial supervision over an individual known to the requesting person (i) to be infected with any communicable disease or (ii) to be subject to an order of quarantine or an order of isolation pursuant to Article 3.02 (§ 32.1-48.05 et seq.) of Chapter 2 shall inform such employee of a public safety agency of the potential risk of exposure to a communicable disease.

(2004, cc. 773, 1021 ; 2007.)

§ 32.1-48.016. Immunity from liability.

Any person, including a person who serves in a Medical Reserve Corps (MRC) unit or on a Community Emergency Response Team (CERT), who, in good faith and in the performance of his duties, acts in compliance with this article and the Board of Health's regulations shall not be liable for any civil damages for any act or omission resulting from such actions unless such act or omission was the result of gross negligence or willful misconduct.

(2004, cc. 773, 1021; 2005, c. 474.)

§ 32.1-48.017. Use of public or private property or facilities.

- A. Upon the declaration by the Governor of a state of emergency pursuant to § 44-146.17, the State Health Commissioner, acting in concert with the Governor, shall be authorized to require the use of any public or private property, building or facility to implement any order of quarantine or order of isolation. The State Health Commissioner and the Governor shall find, together, that the use of the property, building or facility is necessary and appropriate to enforce an order of quarantine or an order of isolation in the least restrictive environment.
- B. If the Commissioner and the Governor elect to use any public or private property, building or facility pursuant to this article and this section, the Commissioner shall make accommodations, in conjunction with the owner or operator of the property, building or facility, for persons who

are employed in, using or occupying the property, building or facility and who are not covered by the relevant order of quarantine or order of isolation.

- C. Owners or operators of any property, building or facility so commandeered shall be entitled to compensation.

(2004, cc. 773, 1021.)

ARTICLE 3.1. Control of Rabies.

§ 32.1-48.1. Regulation of State Health Commissioner declaring existence of rabies; display and publication.

Whenever the State Health Commissioner is informed that an outbreak of rabies has occurred in a county or city, he may, after consulting with the Commissioner of Agriculture and Consumer Services and the Executive Director of the Department of Game and Inland Fisheries, adopt a regulation declaring the existence of rabies in such county or city and containing such requirements as are hereinafter set forth. Such regulations shall be prominently displayed throughout the county or city and shall be published therein by signs or otherwise to call the attention of the public to the existence of such outbreak.

(1954, c. 339, § 29-213.1; 1987, c. 488.)

§ 32.1-48.2. Regulation of Commissioner requiring vaccination or inoculation of dogs.

When the State Health Commissioner has declared that an outbreak of rabies exists in a county or city, he may adopt a regulation requiring all dogs therein to be vaccinated or inoculated against rabies, with such exceptions as he deems appropriate. Such regulation shall set forth the persons by whom and the time within which such vaccination or inoculation may be required. The State Health Commissioner may establish such clinics and furnish other services and supplies as will enable the prompt vaccination or inoculation of all dogs in such county or city.

(1954, c. 339, § 29-213.2; 1987, c. 488.)

§ 32.1-48.3. Regulations of Commissioner covering local ordinances and requirements.

If the governing body of the county or city in which the outbreak exists does not adopt, under §§ 3.1-796.93, 3.1-796.95, 3.1-796.96, 3.1-796.98 and subsection A of § 3.1-796.100, ordinances, regulations and measures to prohibit the running at large of dogs and to prevent the spread of rabies, the State Health Commissioner is authorized to adopt regulations providing for the matters contained in such sections and to enforce the same in the same manner as if they had been specifically adopted by the governing body of the county or city involved, and the provisions of such sections shall apply mutatis mutandis to the regulations adopted by the Commissioner hereunder.

(1954, c. 339, § 29-213.3; 1987, c. 488; 2001, c. 674.)

§ 32.1-48.4. Commissioner to cooperate with local governing bodies and agencies.

The Commissioner shall, insofar as practicable, cooperate with the local governing body and agencies of the county or city involved to the end that a joint program may be adopted and enforced for the reduction and elimination of rabies.

(1954, c. 339, § 29-213.4; 1987, c. 488.)

ARTICLE 4. Tuberculosis.

§ 32.1-49. Tuberculosis required to be reported.

The Board shall include tuberculosis in the list of diseases provided for in § 32.1-35 which are required to be reported.

(1979, c. 711.)

§ 32.1-49.1. Definitions.

"Active tuberculosis disease" means a communicable disease caused by an airborne microorganism and characterized by the presence of either (i) a specimen of sputum or other bodily fluid or tissue that has been found to contain tubercle bacilli as evidenced by culture or other definitive diagnostic test as established by the Commissioner, (ii) a specimen of sputum or other bodily fluid or tissue that is suspected to contain tubercle bacilli as evidenced by smear and sufficient clinical and radiographic evidence of active tuberculosis disease is present as determined by a physician licensed to practice medicine in the Commonwealth, or (iii) sufficient clinical and radiographic evidence of active tuberculosis disease as determined by the Commissioner is present, but a specimen of sputum or other bodily fluid or tissue containing or suspected to contain tubercle bacilli is unobtainable.

"Tubercle bacilli" means disease-causing organisms belonging to the *Mycobacterium tuberculosis* complex and includes *Mycobacterium tuberculosis*, *Mycobacterium bovis*, *Mycobacterium africanum* or other members as established by the Commissioner.

"Tuberculosis" means a disease caused by tubercle bacilli.

(2001, c. 459.)

§ 32.1-50. Examination of persons suspected of having active tuberculosis disease; reporting; report forms; report schedule; laboratory reports and required samples.

- A. Any local health director may request any person having or reasonably suspected of having active tuberculosis disease to be examined immediately for the purpose of ascertaining the presence or absence of the disease. Such examination may be made by any licensed physician or licensed nurse practitioner selected by such person at his own expense and approved by the local health director or by the local health director at no cost to such person.
- B. Each physician or nurse practitioner practicing in the Commonwealth who diagnoses or treats a person for active tuberculosis disease as defined in § 32.1-49.1 and each person in charge of a medical care facility providing inpatient or outpatient diagnosis or treatment for active tuberculosis disease shall report to the local health director within such time period and in such manner as may be prescribed by regulations of the Board. Such report, at a minimum, shall include an initial report when there are reasonable grounds to believe that a person has active

tuberculosis disease, and a subsequent report when a person ceases treatment for tuberculosis disease. Cessation of treatment may be inferred when the person (i) fails to keep a scheduled appointment, (ii) relocates without transferring care, or (iii) discontinues care either upon or against the advice of the treating physician or nurse practitioner.

- C. The initial disease report shall include the following: the affected person's name; date of birth; gender; address; pertinent clinical, radiographic, microbiologic, and pathologic reports, whether final or pending; such other information as is needed to locate the patient for follow-up; and any other information as prescribed by regulations of the Board.
- D. Subsequent reports shall be submitted within such time, at such frequency, and in such manner as may be prescribed by regulations of the Board and shall provide updated clinical status, bacteriologic and radiographic results, assessment of treatment adherence, name of current care provider, and any other information as prescribed by the Board.
- E. Every director of any laboratory doing business in the Commonwealth shall, according to the manner and schedule as determined by the Board, report any result diagnostic of or highly correlated with active tuberculosis disease, whether testing is done in-house or referred to an out-of-state laboratory, including cultures positive for tubercle bacilli and smears suggestive of tubercle bacilli, and shall report the results of tests for antimicrobial susceptibility performed on cultures positive for tubercle bacilli. Each director of any laboratory shall also submit a representative and viable sample of the initial culture to the Virginia Division of Consolidated Laboratory Services or other laboratory designated by the Board to receive such specimen in order to (i) ensure testing for antimicrobial susceptibility on each initial isolate from a person with active tuberculosis disease, and (ii) establish a library of such isolates for the purpose of disease strain analysis as indicated by epidemiological investigations.

(Code 1950, § 32-85.1; 1956, c. 482; 1979, c. 711; 2001, c. 459; 2004, c. 855; 2006, cc. 46, 396, 822.)

§ 32.1-50.1. Treatment plan; submission of plan and mediation of disagreements; determination of cure.

- A. Each physician practicing in the Commonwealth who assumes responsibility for the treatment of a person for active tuberculosis as defined in this article and each person in charge of a medical care facility providing inpatient or outpatient treatment to a person with active tuberculosis shall, with the assistance and acknowledgement of that person, develop, maintain, and update as indicated, an individualized written plan of treatment tailored to the person's medical and personal needs and identifying the method for effective treatment and prevention of transmission. At a minimum, the plan shall specifically include verified patient address, name of the medical provider who has assumed responsibility for treatment, planned course of anti-tuberculosis drug therapy, estimated date of treatment completion, and means of ensuring successful completion of that treatment.
- B. The written treatment plan shall upon request be submitted by the medical provider to the local health director in a manner determined by the Board and shall be subject to approval of the local health director. The Commissioner shall have the authority to settle, based on statewide standards, disagreements between the written plan so submitted and standards of care established by the local health director.

- C. Each treating physician or person in charge of a medical facility providing outpatient or inpatient care to a person with active tuberculosis disease shall maintain and submit to the local health director, upon his request, written documentation of that person's adherence to the treatment plan.
- D. Each person in charge of a medical care facility providing inpatient treatment to a person with active tuberculosis disease and each person in charge of a state correctional or local correctional or detention facility that has in its custody a person with active tuberculosis shall submit to the local health director, in the manner determined by the Board, the plan of treatment for such person as required in this article. The person in charge shall encourage the person to comply with such treatment plan; however, if such person with active tuberculosis indicates an unwillingness to comply with the treatment plan upon release, or exhibits behavior that indicates noncompliance, the person in charge, in conjunction with the local health director, may request the Commissioner to issue an emergency order requiring such person to be taken into custody pursuant to § 32.1-48.02 or other detention or custody options available pursuant to § 32.1-48.03 or § 32.1-48.04.
- E. Once established in a person, active tuberculosis disease shall be considered present until (i) the person has received a complete and adequate course of antituberculosis drug therapy as established by the Commissioner in accordance with guidelines developed by the American Thoracic Society and Centers for Disease Control and Prevention and (ii) three successive cultures of specimens of sputum or other bodily fluid or tissue collected at intervals of no less than one week, or other definitive diagnostic test as established by the Commissioner demonstrate no viable tubercle bacilli, or the Commissioner or his designee determines that the clinical, laboratory, or radiographic evidence leads to a diagnosis other than active tuberculosis disease.

(2001, c. 459.)

§ 32.1-50.2. Administration of tuberculin purified protein derivative by nurses; policies and guidelines.

The Department shall issue policies and guidelines governing the possession and administration of tuberculin purified protein derivative (PPD) by registered nurses and licensed practical nurses pursuant to § 54.1-3408.

(2003, c. 515.)

§§ 32.1-51. , 32.1-52.

Repealed by Acts 1990, c. 958.

§ 32.1-53. Facilities and contracts for treatment of tuberculosis patients.

The Board may construct and operate hospitals and other facilities for the diagnosis and treatment of tuberculosis or enter into contractual arrangements with medical schools and hospitals in the Commonwealth for the care and treatment of tuberculosis patients.

(Code 1950, § 32-312; 1979, c. 711.)

§ 32.1-54. Commissioner authorized to charge patients for care.

When a tuberculosis patient is admitted to a facility operated by the Board or under contract with the Board, the Commissioner shall determine whether such patient or any person legally liable for such patient's support is able to pay in whole or in part for such patient's care. In making such determination, the Commissioner shall consider whether such patient or other person can make such payment and meet his other financial responsibilities for the support of himself and his family. Such determination may be made from time to time according to the circumstances of each case. If the Commissioner determines that a patient or person legally liable for his support can pay for the cost of his care or a portion thereof, the Commissioner shall collect for the cost of such care the actual average per diem cost or such portion thereof as the Commissioner may determine the patient should pay. The Commissioner shall also collect any third-party payments as may be available for the care and treatment of such patient unless other contractual arrangements are made.

(Code 1950, § 32-312.1; 1954, c. 698; 1956, c. 499; 1979, c. 711.)

ARTICLE 5. Venereal Diseases.

§ 32.1-55. Definition.

As used in this article, "venereal disease" includes syphilis, gonorrhea, chancroid, granuloma inguinale, lymphogranuloma venereum and any other sexually transmittable disease determined by the Board to be dangerous to the public health.

(Code 1950, § 32-90; 1979, c. 711.)

§ 32.1-55.1. Anonymous testing sites for human immunodeficiency virus.

From such funds as are appropriated for this purpose, the Board of Health shall make available in all health services areas of the Commonwealth anonymous testing for infection with human immunodeficiency virus.

(1989, c. 613.)

§ 32.1-56. Information to be provided patients.

It shall be the duty of every physician or other person who examines or treats a person having a venereal disease to provide such person with information about the disease, including, as a minimum, the nature of the disease, methods of treatment, measures used in preventing the spread of such disease, and the necessity of tests to ensure that a cure has been accomplished.

(Code 1950, § 32-92; 1979, c. 711.)

§ 32.1-57. Examination, testing and treatment; failure to comply with order of examination.

- A. A local health director may require any person suspected of being infected with any venereal disease to submit to examination, testing and treatment if necessary.
- B. If any such person refuses to submit to an examination, testing or treatment or to continue treatment until found to be cured by proper test, the local health director may apply to the appropriate circuit court for an order compelling such examination, testing or treatment. Any person willfully failing to comply with such order shall be punishable as for contempt of court.

- C. If a person infected with venereal disease is required by the local health director to receive treatment therefor and such person receives such treatment from the local health department, no fee shall be charged.

(Code 1950, § 32-93; 1979, c. 711; 1988, c. 399.)

§ 32.1-58. Persons convicted of certain crimes to be examined, tested and treated.

Each person convicted of a violation of § 18.2-346 or § 18.2-361 shall be examined and tested for venereal disease and treated if necessary.

(Code 1950, § 32-94; 1979, c. 711.)

§ 32.1-59. Examination and treatment in certain institutions.

Every person admitted to any state correctional institution and every person who is confined to a state hospital for the mentally ill or mentally retarded shall be examined and tested for venereal disease. If any such person is found to be infected with a venereal disease, the person in charge of such institution shall promptly provide treatment and shall report such case as provided in § 32.1-37.

(Code 1950, § 32-104; 1979, c. 711.)

§ 32.1-60. Prenatal tests required.

Every physician, physician assistant, or nurse practitioner attending a pregnant woman during gestation shall examine and test such woman for such venereal diseases as the Board may designate within 15 days after beginning such attendance. Every other person permitted by law to attend upon pregnant women but not permitted by law to make such examinations and tests, shall cause such examinations and tests to be made by a licensed physician, licensed nurse practitioner, or clinic. Serological tests required by this section may be performed by the Department of General Services, Division of Consolidated Laboratory Services (DCLS).

(Code 1950, § 32-104.1; 1950, p. 108; 1979, c. 711; 1980, c. 184; 1984, c. 140; 1993, c. 364; 2004, c. 855; 2006, c. 396)

ARTICLE 6. Prevention of Blindness from Ophthalmia Neonatorum.

§ 32.1-61. Definition.

As used in this article, "ophthalmia neonatorum" means any inflammation, swelling or unusual redness in one or both eyes of any infant, either apart from or together with any unnatural discharge from the eye or eyes of such infant, independent of the nature of the infection, if any, occurring at any time within two weeks after the birth of such infant.

(Code 1950, § 32-105; 1979, c. 711.)

§ 32.1-62. Procedure upon infant's birth.

In order to prevent ophthalmia neonatorum, the physician, nurse or midwife in charge of the delivery of a baby or, if none, the first attending physician shall, immediately after the baby's birth,

perform upon such baby the procedure prescribed by the Board. Such action shall be duly recorded in the medical record of the baby.

(Code 1950, § 32-107; 1979, c. 711.)

§ 32.1-63. Duty of physician, midwife or nurse noting ophthalmia neonatorum.

It shall be the duty of any physician, midwife or nurse who notes ophthalmia neonatorum within two weeks after the birth of an infant to perform or cause to be performed such tests as are necessary to ascertain the cause of such inflammation and to institute or have instituted appropriate therapy. When the cause of such inflammation is ascertained to be gonococcus, such physician, nurse or midwife shall report the infection to the local health director or the Commissioner as provided in § 32.1-36.

(Code 1950, § 32-106; 1979, c. 711.)

§ 32.1-64. Duty of Board to provide for treatment.

The Board shall provide for the gratuitous distribution of the necessary treatment approved by it for ophthalmia neonatorum, together with proper directions for the use and administration thereof, to all physicians, midwives and hospitals requesting it. The Board shall provide free of charge in medically indigent cases the necessary treatment for ophthalmia neonatorum when the cause is ascertained to be gonococcus.

(Code 1950, § 32-109; 1979, c. 711.)

ARTICLE 9. Statewide Cancer Registry.

§ 32.1-70. Information from hospitals, clinics, certain laboratories and physicians supplied to Commissioner; statewide cancer registry.

A. Each hospital, clinic and independent pathology laboratory shall make available to the Commissioner or his agents information on patients having malignant tumors or cancers. A physician shall report information on patients having cancers unless he has determined that a hospital, clinic or in-state pathology laboratory has reported the information. This reporting requirement shall not apply to basal and squamous cell carcinoma of the skin. Such information shall include the name, address, sex, race, diagnosis and any other pertinent identifying information regarding each such patient and shall include information regarding possible exposure to Agent Orange or other defoliants through their development, testing or use or through service in the Vietnam War. Each hospital, clinic, independent pathology laboratory, or physician shall provide other available clinical information as defined by the Board of Health.

B. From such information the Commissioner shall establish and maintain a statewide cancer registry. The purpose of the statewide cancer registry shall include but not be limited to:

1. Determining means of improving the diagnosis and treatment of cancer patients.
2. Determining the need for and means of providing better long-term, follow-up care of cancer patients.

- 2a. Conducting epidemiological analyses of the incidence, prevalence, survival, and risk factors associated with the occurrence of cancer in Virginia.
3. Collecting data to evaluate the possible carcinogenic effects of environmental hazards including exposure to dioxin and the defoliant, Agent Orange.
4. Improving rehabilitative programs for cancer patients.
5. Assisting in the training of hospital personnel.
6. Determining other needs of cancer patients and health personnel.

(Code 1950, § 32-388; 1950, p. 187; 1978, c. 792; 1979, c. 711; 1988, cc. 447, 459, 843; 1998, c. 315.)

§ 32.1-70.1.

Repealed by Acts 1998, c. 315.

§ 32.1-70.2. Collection of cancer case information by the Commissioner.

- A. Using such funds as may be appropriated therefor, the Commissioner or his designee may perform on-site data collection of the records of patients having malignant tumors or cancers at those consenting hospitals, clinics, independent pathology laboratories and physician offices required to report information of such patients pursuant to the reporting requirements of § 32.1-70, in order to ensure the completeness and accuracy of the statewide cancer registry.
- B. The selection criteria for determining which consenting hospitals, clinics, independent pathology laboratories and physician offices may be subject to on-site data collection under the provisions of this section shall include, but shall not be limited to: (i) expected annual number of cancer case reports, (ii) historical completeness and accuracy of reporting rates, and (iii) whether the facility maintains its own cancer registry.
- C. The Board of Health shall promulgate regulations necessary to implement the provisions of this section.

(2000, cc. 74, 139.)

§ 32.1-71. Confidential nature of information supplied; publication; reciprocal data-sharing agreements.

- A. The Commissioner and all persons to whom information is submitted in accordance with § 32.1-70 shall keep such information confidential. Except as authorized by the Commissioner in accordance with the provisions of § 32.1-41, no release of any such information shall be made except in the form of statistical or other studies which do not identify individual cases.
- B. The Commissioner may enter into reciprocal data-sharing agreements with other cancer registries for the exchange of information. Upon the provision of satisfactory assurances for the preservation of the confidentiality of such information, patient-identifying information may be exchanged with other cancer registries which have entered into reciprocal data-sharing agreements with the Commissioner.

(Code 1950, § 32-389; 1950, p. 187; 1979, c. 711; 1991, c. 319; 2000, cc. 74, 139.)

§ 32.1-71.01. Penalties for unauthorized use of statewide cancer registry.

In addition to the remedies provided in § 32.1-27, any person who uses, discloses or releases data maintained in the statewide cancer registry in violation of § 32.1-71 shall be subject, in the discretion of the court, to a civil penalty not to exceed \$25,000 for each violation, which shall be paid to the general fund.

(2000, cc. 74, 139.)

§ 32.1-71.02. Notification of cancer patients of statewide cancer registry reporting.

- A. Any physician diagnosing a malignant tumor or cancer shall, at such time and in such manner as considered appropriate by such physician, notify each patient whose name and record abstract is required to be reported to the statewide cancer registry pursuant to § 32.1-70 that personal identifying information about him has been included in the registry as required by law. Any physician required to so notify a patient that personal identifying information about him has been included in the cancer registry may, when, in the opinion of the physician, such notice would be injurious to the patient's health or well-being, provide the required notice to the patient's authorized representative or next of kin in lieu of notifying the patient.
- B. Upon request to the statewide cancer registry, the patient whose personal identifying information has been submitted to such registry shall have a right to know the identity of the reporter of his information to such registry.

(2000, c. 918; 2003, cc. 540, 548.)

§§ 32.1-71.1. through 32.1-71.4.

Repealed by Acts 1994, c. 109.

§ 32.1-72.

Repealed by Acts 1992, cc. 747 and 873.

III. PENALTIES

ARTICLE 11. Penalties. (from Chapter 2 of Title 32.1)

§ 32.1-73. Failure to comply with provisions; grounds for revocation of license or permit.

The failure of any physician, nurse or midwife to comply with the provisions of § 32.1-60, § 32.1-62 or § 32.1-65 shall, in addition to any other penalty prescribed by law, constitute grounds for revocation of the license or permit of such physician, nurse or midwife by the board issuing such license or permit.

(1979, c. 711.)

§§ 32.1-73.1. through 32.1-73.4.

Repealed by Acts 2002, c. 60.

**ARTICLE 4. Penalty.
(from Chapter 1 of Title 32.1)**

§ 32.1-27. Penalties, injunctions, civil penalties and charges for violations.

- A. Any person willfully violating or refusing, failing or neglecting to comply with any regulation or order of the Board or Commissioner or any provision of this title shall be guilty of a Class 1 misdemeanor unless a different penalty is specified.
- B. Any person violating or failing, neglecting, or refusing to obey any lawful regulation or order of the Board or Commissioner or any provision of this title may be compelled in a proceeding instituted in an appropriate court by the Board or Commissioner to obey such regulation, order or provision of this title and to comply therewith by injunction, mandamus, or other appropriate remedy or, pursuant to § 32.1-27.1, imposition of a civil penalty or appointment of a receiver.
- C. Without limiting the remedies which may be obtained in subsection B of this section, any person violating or failing, neglecting or refusing to obey any injunction, mandamus or other remedy obtained pursuant to subsection B shall be subject, in the discretion of the court, to a civil penalty not to exceed \$25,000 for each violation, which shall be paid to the general fund, except that civil penalties for environmental pollution shall be paid into the state treasury and credited to the Water Supply Assistance Grant Fund created pursuant to § 32.1-171.2. Each day of violation shall constitute a separate offense.
- D. With the consent of any person who has violated or failed, neglected or refused to obey any regulation or order of the Board or Commissioner or any provision of this title, the Board may provide, in an order issued by the Board against such person, for the payment of civil charges for past violations in specific sums, not to exceed the limits specified § 32.1-27.1 and subsection C of this section. Such civil charges shall be instead of any appropriate civil penalty which could be imposed under § 32.1-27.1 and subsection C of this section. When civil charges are based upon environmental pollution, the civil charges shall be paid into the state treasury and credited to the Water Supply Assistance Grant Fund created pursuant to § 32.1-171.2.
